Safety products are essential. Cintas has you covered.

First aid products from Cintas are packaged with the workplace in mind, helping you save time so you can focus on your business.

- **Over-the-counter medicines:** single-dose, tamper-evident, non-drowsy formulas
- **Bandages:** durable, latex-free, water-resistant
- **Ointments:** single-dose, tamper-evident packaging
- **Burn care:** sprays and single-use packets help avoid contamination

First Aid Built for the Workplace

Statistics

- There were 2.7 million nonfatal workplace injuries and illnesses reported by private industry employers in 2020.¹
- The total cost of work injuries in 2019 was \$171.0 billion.²
- Every 7 seconds, a worker is injured on the job.³
- In 2019, 37.3 million Americans, or 10.5% of the population, had diabetes.⁴
- It has been estimated that employers pay almost \$1 billion per week for direct workers' compensation costs alone.⁵

OSHA 29 CFR 1910.151(B)

"In the absence of an infirmary, clinic, or hospital in near proximity to the workplace which is used for the treatment of all injured employees, a person or persons shall be adequately trained to render first aid. Adequate first aid supplies shall be readily available."

ANSI/ISEA Z308.1-2021

"This standard establishes minimum performance requirements for first aid kits and their supplies that are intended for use in various work environments. Classification of first aid kits, designating the assortment of items and quantity of each item, is based the complexity of the work environment and level of hazards."

"First aid kits should be inspected at least monthly or following a first aid incident when product is used. Frequent inspection is recommended to ensure the completeness and usable condition of supplies to maintain compliance with this standard. Any supply beyond its marked expiration date should be replaced. Cabinet surfaces should be disinfected regularly, during restocking or following any first aid incident when product is used. Dependent on workplace environment, cabinet surfaces may need to be cleaned and disinfected more frequently. It is recommended that product is easily identified and well organized."

"When assessing risk, proximity of first aid supplies in relation to each worker is imperative. It is inadequate to base first aid kits and cabinets solely on the number of people in a work environment (i.e. 10-Person, 25-Person, 50-Person or 100-Person First Aid Kits)."

Hard Case • 22029
Soft-Sided Bag • 22129

Small Mobile First Aid Bag

- Portable, lightweight, soft-sided trauma bag contains essential items for mobile first aid care
 - Includes a comprehensive selection of basic first aid products
 - 11" x 7" x 4 ½"
- Part Number:** 21629

Fleet Replenishment Center

- Unitized boxes designed for mobile first aid kits
 - Multiples of each product to support fleets of every size
 - Instructional label inside to help your employees maintain their mobile first aid kits
- Part Number:** 13199

Bleeding Control Kits

When an injury occurs, controlling blood loss is the priority while waiting for arrival of emergency medical services. These kits contain high quality bleeding control products that can help you be prepared to save a life.

DID YOU KNOW?

The American National Standards Institute (ANSI) released an updated Z308.1 *Minimum Requirements for Workplace First Aid Kits* standard in 2022. In addition to making emergency foil blankets required, emergency tourniquets now have a more specific definition. To learn more about additional guidance in the updated standard, visit [cintas.com/ANSI2021](https://www.cintas.com/ANSI2021).

Premium Bleeding Control Kit

- 1 tourniquet
- 1 compression bandage — 3" x 48" featuring unique latex-free elastic wrap
- 1 hemostatic pad — 4" x 4"
- 1 pair nitrile gloves
- 2 roller gauze
- 1 trauma shears
- 1 permanent marker
- 1 instruction card
- 1 chest seal
- 1 emergency blanket

Part Numbers:
Premium Kit (pictured) • 615508
Premium Refill Packet • 615509

Part Number: 150100

Lister Bandage Scissors

- Blunt tip with angled lower blade helps to safely remove first aid bandages and dressings

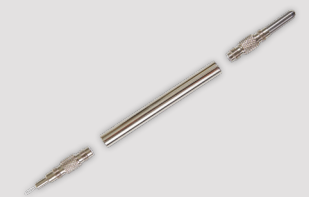

Part Numbers:
4½" • 150800
5½" • 150820
7½" • 150900

EMT Utility Scissors

- Made with quality stainless steel and enlarged handles for a comfortable, functional grip
- Easily cuts through clothing in emergencies

Part Number: 150920

Eye Magnet with Loop

- Designed to remove metallic and non-metallic objects from the eye with minimal intrusion

Part Number: 150420

Wound Closures

- Two sizes of butterfly bandages to help secure small wounds and incisions
- Sterile, latex free

Part Number: 32069

Disposable Thermometer

- Single-use and disposable to help prevent cross contamination and infection

Part Number:
4 Count • 151119

Cotton Tipped Applicators

- Soft application with the cotton tip and wooden handle
- Can be used for both cleaning the area around a wound and applying ointment

Part Numbers:
Large Box – 3" • 70010
XL – 3" • 70040 XL – 6" • 70240

Antiseptics and Ointments

Products to help clean minor wounds and prevent infection.

SPRAYS

Hydrogen Peroxide Spray

- Use as first aid treatment for minor cuts, scrapes and abrasions
- Contains: Hydrogen Peroxide 3%
- Part Number:** 50239

Antiseptic Spray

- Use as a first aid treatment for minor cuts and scrapes
- Contains: Benzalkonium chloride 0.13%
- Part Number:** 61029

Isopropyl Alcohol Spray

- Use as a rubbing compound, an antiseptic or as a cleaning disinfectant for instruments
- Contains: Isopropyl Alcohol 70%
- Part Number:** 50539

WIPES

Antiseptic Wipes

- Decreases bacteria on skin
- Helps prevent infection
- Contains: Benzalkonium Chloride 0.133%
- Part Numbers:** S • 50030 M • 50009

Alcohol Wipes

- Cleans skin, hands, and area surrounding wounds
- Contains: Isopropyl Alcohol 70%
- Part Numbers:** S • 50430 M • 50429

OINTMENT

Triple Antibiotic Ointment

- Helps prevent infection in minor cuts, scrapes and burns
- Contains: Bacitracin 400 units, Neomycin Sulfate 5mg, Polymyxin-B Sulfate 5,000 units
- Part Numbers:** S • 100039 M • 100019

First Aid Cream

- Helps prevent infection
- Temporary relief of pain or discomfort in minor cuts, scrapes and burns
- Contains: Benzalkonium Chloride 0.13%, Lidocaine HCL 0.5%
- Part Numbers:** S • 101239 M • 101219

Blood Clotting Agents

Various applications to help control and prevent bleeding.

Super-Stop™ BloodClotter

- Antiseptic action helps prevent infection and promotes faster healing
- Use on minor cuts, scrapes and scratches
- Contains: Benzethonium Chloride 0.2%, Lidocaine 4%
- Part Number:** 3 oz. Spray • 64039

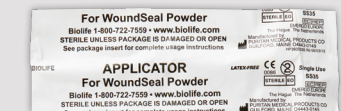

Bloodstopper Wrap

- Temporary bandage to control severe bleeding
- Highly absorbent, non-adherent foam dressing
- Self-adhering wrap, holds without clips
- Part Number:** 562567

WoundSeal® Pour Pack

- Topical powder for minor external bleeding
- For easy-to-reach wounds
- Part Number:** 1030600

WoundSeal® and Applicator

- Topical powder for minor external bleeding
- For easy-to-reach wounds
- Part Number:** 1030500

Comfort Topicals

Help keep your employees productive and on the job with lotions and comfort products.

MUSCLE RELIEF

Biofreeze™ Muscle Relief

- Cold therapy pain relief for sore muscles, backaches, sore joints and arthritis
- Vanishing scent
- Paraben free

Part Number: 102640

ITCH RELIEF

Itch Relief

- Temporary relief of itching associated with minor skin irritations and rashes
- Packets contain: Hydrocortisone acetate 1%
- Spray contains: Diphenhydramine hydrochloride 2%

Part Numbers:

S • 100439 M • 100419 Spray • 61109

Hand Lotion

- Skin lotion for dry, chafed and irritated skin
- Specially formulated with Mineral oil, cyclomethicone and aloe vera for quick absorption

Part Numbers:

S • 100639 M • 100619

ORAL RELIEF

Dental Relief Ointment

- Temporarily relieves pain due to canker sores or minor mouth and gum injuries
- Contains: Benzocaine 20%

Part Number: 102835

Lip Aid Ointment

- Use to soothe and hydrate dry lips
- Contains: mineral oil, bees wax, vitamin E, coconut oil and pomegranate flavor

Part Number: 102435

Eye Relief

We offer options from eye wash and eye drops to flushing bottles/cups.

Industrial Eye Relief

- Sterile eye drops
- Relieves redness

Part Number: 130209

Eye Cups

- Non-sterile plastic cups shaped to fit over the eye for minor flushing of eyes with solution

Part Number: 131600

Eyewash

- Buffered isotonic solution, 4 fl oz
- Used to flush away foreign material from as or skin

Part Number: 130429

Lubricant Eye Drops

- Relieves eye irritation and dryness
- Sterile and preservative free

Part Number: 130100

Sanitizers and Wipes

We know you want to keep your employees and customers safe — stock up on essential supplies.

The Safety Director® Heavy Duty Hand & Surface Cleaner

- Dual sided wipe with a soft side and abrasive side
- Industrial strength
- No rinsing, no residue
- Citrus scent

Part Number: 251430

P.A.W.S.™ Hand Wipes

- Kills 99.99% of germs
- Enriched with aloe vera
- Contains: 66.5% ethyl alcohol
- Available in single packets or dispensing canister

Part Numbers:
50 Count • 50590
160 Count Canister • 5064
100 Count Box • 50620

Outdoor Skin Protection

If your job requires you to be outside, be **Ready™** with the right protection.

SunX™ Sunscreen

- UVA/UVB Protection
- Broad Spectrum SPF 30+
- Contains aloe vera gel and vitamin E

Part Numbers:
50 Packets • 78397
32 oz Flip Top • 8310929

BugX30® Insect Repellent

- Up to 7 hours of protection against mosquitoes, ticks, fleas, chiggers, black flies, sand flies and deer flies
- Contains: 30% DEET

Part Numbers:
25 Packets • 140560
Pump Spray • 182020

Lysol® Disinfecting Wipes

- Kills 99.9% of viruses and bacteria
- Able to use on electronics
- 80 count pack

Part Number: 617989

Germ-X® Hand Wipes

- Kills 99.99% of germs
- 100 individually wrapped wipes

Part Number: 616676

The Safety Director® All-Purpose Wipers

- Up to 3X stronger than ordinary paper towels
- 2X better softness and absorbency than ordinary paper towels
- Convenient pop-up box for easy dispensing

Part Number: 94400

IvyX™ Pre-Contact & Cleanser

- Use pre-contact towelette before possible contact with natural outdoor environmental irritants
- Use post-contact towelette to assist in the removal of urushiol oils found in poisonous plants

Part Numbers:
Pre-Contact • 140520
Cleanser • 140540

Sting Wipes

- Use for temporary relief from pain and itching associated with minor insect bites
- Helps prevent infection

Part Number: 182019

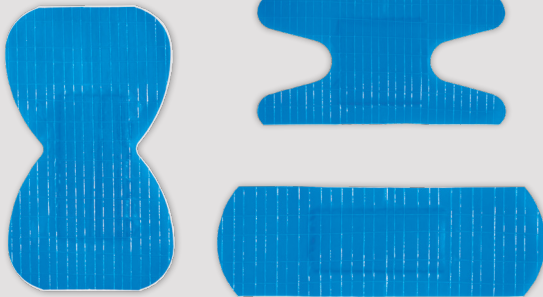

Food Service First Aid Centers

Our standard, wall-mountable food service first aid cabinets are stocked with a wide selection of items covering first aid needs unique to the industry. They include products such as metal-detectable blue bandages in a variety of shapes, Cool&Soothe™ burn/blister relief dressing and blue finger cots.

Food Service First Aid Cabinet

- Color-coded and wall-mounted with tamper-evident, single-dose products
- Customizable to meet the needs of your business
- Includes burn products, metal-detectable blue bandages in addition to the standard fill

- 18 standard compartments
- Ideal for larger items such as boxes of nitrile gloves, respirators, hard hats and safety vests
- Optional scale technology provides absolute control for sensitive or higher cost items
- Comes standard with: RFID card reader, cellular modem, touchscreen, LED lighting, adjustable compartments to fit all products
- 73.3" H x 30.1" W x 26.4" D
- Part number:** 577107

Hand Protection

Welcome to a new generation of gloves that provide better protection with greater comfort. With our wide selection of gloves from industry-leading manufacturers, Cintas makes it easy for you to promote a safer work environment and pair the right glove with the right job — for any type of application and environment.

HAND PROTECTION TYPES

- Disposable
- Cut resistant
- Coated knit
- Leather
- Welding
- Mechanics
- Fabric
- String knit
- Chemical resistant
- Electrical

DID YOU KNOW?

OSHA 29 CFR 1910.138 (A) STATES:

“General requirements. Employers shall select and require employees to use appropriate hand protection when employees' hands are exposed to hazards such as those from skin absorption of harmful substances; severe cuts or lacerations; severe abrasions; punctures; chemical burns; thermal burns; and harmful temperature extremes.”

OSHA 29 CFR 1910.138 (B) STATES:

“Selection. Employers shall base the selection of the appropriate hand protection on an evaluation of the performance characteristics of the hand protection relative to the task(s) to be performed, conditions present, duration of use and the hazards and potential hazards identified.”

DISCLAIMER: PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

Disposable Gloves

Best for one-time use, disposable gloves are essential for so many businesses — food processing, assembly operations and more. Choose from a variety of material and strength options to help you protect your employees while on the job.

GLOVES FOR FOOD HANDLING APPLICATIONS

Having the right gloves for the job is important to your business. The disposable gloves in this section meet the requirements for FDA 21 CFR, Part 177 for food service handling

Part Numbers:
S • 617065S M • 617065M L • 617065L XL • 617065XL1

Cut Resistant Gloves

Just as the name implies, cut-resistant gloves help you protect your employees from cuts caused by sharp objects like glass, metal and other materials — so all they need to focus on is the job at hand. They're ideal for many industries such as manufacturing, oil and gas, metal working and mining.

In 2016, the American National Standards Institute (ANSI) released an updated edition of the ANSI/ISEA 105-2016 standard. The changes include a new scale to determine cut score and a revised method for testing gloves to the standard. Cut gloves are now rated on a scale of one through nine to determine cut resistance — one being the lowest and nine being the highest.*

Electrical Gloves

Rubber insulated electrical gloves can help provide protection against shock hazards when employees are working on energized equipment. Leather protectors are worn over them to help prevent punctures.

DID YOU KNOW?

Some gloves come in letter sizes such as small, medium or large, while others are available in numerical sizes. To determine your numerical glove size, use a tape measure and wrap it around the circumference of the palm of your dominant hand. This measurement in inches is your glove size.

Novax® Electrical Safety Kit

- 1 pair ESP gloves in black or orange, class 00 or 0 (150-00-11)
- 1 pair goatskin leather protectors (148-1000)
- 11" nylon glove bag (148-2136)

DID YOU KNOW?

OSHA 29 CFR 1910.133 (A) (1) STATES

"The employer shall ensure that each affected employee uses appropriate eye or face protection when exposed to eye or face hazards from flying particles, molten metal, liquid chemicals, acids or caustic liquids, chemical gases or vapors, or potentially injurious light radiation."

OSHA 29 CFR 1910.133 (A) (2) STATES

"The employer shall ensure that each affected employee uses eye protection that provides side protection when there is a hazard from flying objects. Detachable side protectors (e.g. clip-on or slide-on side shields) meeting the pertinent requirements of this section are acceptable."

OSHA 29 CFR 1910.133 (A) (3) STATES

"The employer shall ensure that each affected employee who wears prescription lenses while engaged in operations that involve eye hazards wears eye protection that incorporates the

prescription in its design, or wears eye protection that can be worn over the prescription lenses without disturbing the proper position of the prescription lenses or the protective lenses."

OSHA 29 CFR 1910.133 (A) (4) STATES

"Eye and face PPE shall be distinctly marked to facilitate identification of the manufacturer."

OSHA 29 CFR 1910.133 (A) (5) STATES

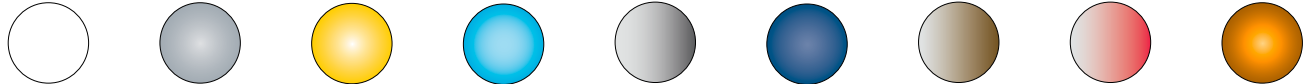

"The employer shall ensure that each affected employee uses equipment with filter lenses that have a shade number appropriate for the work being performed for protection from injurious light radiation."

OSHA 29 CFR 1910.133 (B) (1) STATES

Protective eye and face protection devices must comply with ANSI/ISEA Z87.1

PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS THE SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY IT'S EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OF FITNESS FOR PARTICULAR PURPOSE.

- Polycarbonate, toric lens, HydroShield® Anti-fog coating
- Polypropylene, elastomer goggle body
- Quick-adjust latex-free headband: in Neoprene or fabric
- 1 pair per box, 50 pairs per case

Part Number:

- Clear A/F • 603353

G201 Direct Vent

- Perforated, provides excellent ventilation
- 12 pairs per box, 144 pairs per case

Part Number:

- Clear • CR2220R

2400 Indirect Vent

- Adjustable elastic headband
- Dielectric, no metal parts
- Fits over most prescription glasses
- Impact Resistant
- Indirect vented design
- 12 pairs per box, 60 pairs per case

Part Number:

- Clear • 574375

Face Shields and Headgear

Face shield and headgear assemblies provide a comfortable full-face protective barrier, with safety glasses worn under them, to help provide protection from liquid splashes and flying debris.

Headgear/Face Shield Combo

Part Number:
 Clear • CR5126SD

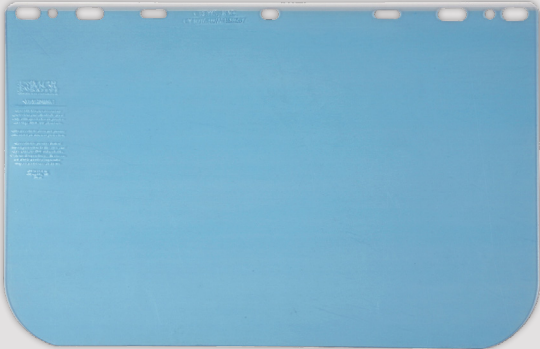

- Ratchet headgear bracket accepts most manufacturers' face shields
- 0.040 Thick polycarbonate Shield
- Helps protect against harmful UV rays
- Blue polycarbonate frame
- Clear PETG Shield
- Sold individually
- 16 per case

HEADGEAR

- Ratchet Headgear**
- Accepts MCR Safety's universal face shields
 - Allows face shield to be raised and lowered while wearing
 - Bracket accepts most manufacturers' face shields
 - Sold individually
 - 24 per case
- Part Number:** CR103

FACE SHIELDS

- Clear PETG Face Shield**
- Clear PETG material, shown with protective blue film
 - .042 inch thickness
 - Lightweight and impact resistant
 - Protection from liquid splashes and flying debris
 - Sold individually
 - 100 per case
- Part Numbers:**
 10" x 15.5" • CR101640
 8" x 16" • CR181640

Accessories

Help maintain protective eyewear with your choice of accessories — including anti-fog lens wipes that clean and prevent static on safety glasses and goggles, and universal side shields that easily fit over most prescription frames.

Neck Cord

- Conveniently hang glasses around the neck
- Thick, soft cord
- 12" long
- 12 per bag, 1,200 per case

Part Numbers:

- Black • 599412
- Blue • 599415

Economy Neck Cord

- Conveniently hang glasses around the neck
- Nylon cord
- 16" long
- 12 per bag, 2,400 per case

Part Numbers:

- Black • 281040

The Safety Director® Sideshields

- Molded soft vinyl sideshields that weave through temples
- Added protection on sides of standard reading glasses or sunglasses
- Sold by the pair
- 600 pair per case

Part Number: 281050

Drawstring Glasses Case

- Cloth drawstring case
- Microfiber nylon material
- Ideal for lens cleaning
- Case size: 7.5" x 4"

Part Number: 619043

CLEANING STATION

The Safety Director® Disposable Lens Cleaning Station

- For plastic, polycarbonate and glass lenses
- Ideal for glasses, goggles and face shields
- Anti-fog, anti-static formula without silicone
- Includes lens tissue

Part Numbers:

- Cleaning Station • 1408090 (pictured)
- Replacement Pump • 280680
- Cleaner/Defogger (16 oz) • 280620
- Cleaner/Defogger (1 gal) • 280660
- Metal station with lock • 280210
- Lens tissue 300/PK • 280610
- Lens tissue 760/PK • 280600

LENS WIPES

The Safety Director® Lens Wipes

- For use on goggles and glasses made from glass, polycarbonate or plastic
- Silicone free
- Anti-static
- Anti-fog
- 100 individually packaged towelettes per box
- 10 boxes per case

Part Numbers:

- 100 Count • 280020
- 36 Count • 280000

Hearing Protection

Businesses operating in work environments with noise levels above 85 dBA are required to meet OSHA standards for hearing conservation. Cintas offers a wide selection of industry-leading hearing protection products to choose from — helping you keep them safe and productive.

HEARING PROTECTION TYPES

- Disposable earplugs
- Reusable earplugs
- Earmuffs

DID YOU KNOW?

OSHA STANDARD 29 CFR 1910.95 STATES:

“The hearing conservation program requires employers to monitor noise exposure levels in a way that accurately identifies employees exposed to noise at or above 85 decibels (dB) averaged over 8 working hours, or an 8-hour time-weighted average (TWA) ... Employers must provide hearing protectors to all workers exposed to 8-hour

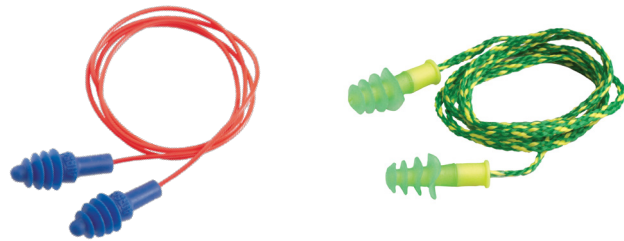

TWA noise levels of 85 dB or above. This requirement ensures that employees have access to protectors before they experience any hearing loss. Employees must wear hearing protectors:

- For any period exceeding 6 months from the time they are first exposed to 8-hour TWA noise levels of 85 dB or above, until they receive their baseline audiograms if these tests are delayed due to mobile test van scheduling;
- If they have incurred standard threshold shifts that demonstrate they are susceptible to noise; and
- If they are exposed to noise over the permissible exposure limit of 90dB over an 8-hour TWA.”

DISCLAIMER: PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

Hearing Protection Categories

Earplugs come in a wide variety of forms, mostly manufactured from soft plastic, PVC, silicone and Polyurethane.

Reusable earplugs

Most commonly come in 3 flange, 4 flange, or twist-in shapes.

Disposable plugs

Most commonly come in six shapes:

- Tapered
- Cylinder
- T-Shaped
- Bell
- Pods/No-roll Foam
- Contoured

Banded earplugs

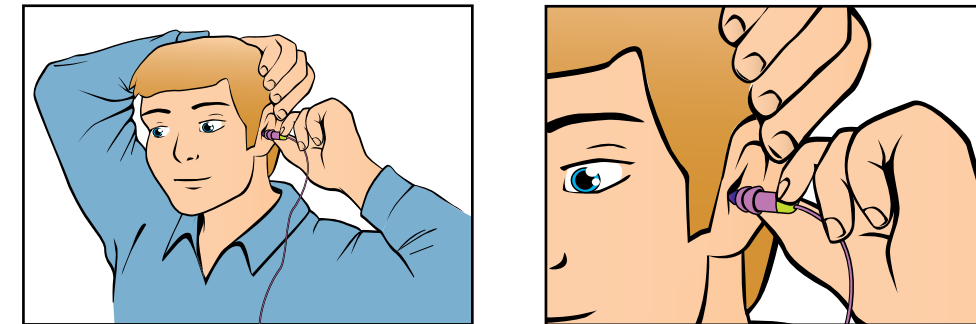

Not fully inserted into the ear canal like regular earplugs. These stay in place just over the ear canals by a rigid headband that connects the earplugs together.

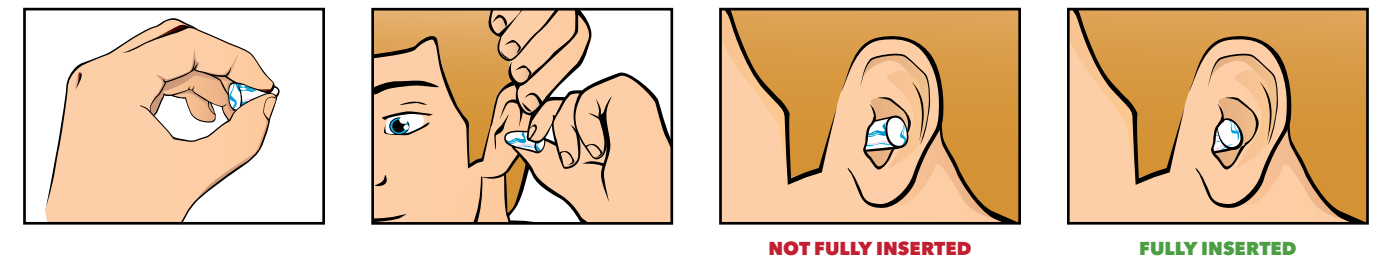

Earmuffs

Made with sound-attenuating material and soft ear cushions that fit around hard outer cups and are held together with a headband. Earmuffs can come in passive type or active type. Active earmuffs have an electronic component and microphones that allow the user to control their access to communication while attenuating background noise.

HOW TO INSERT A REUSABLE PREMOLDED/PREFORMED EARPLUG:

HOW TO INSERT A MOLDABLE EARPLUG:

1. ROLL & COMPRESS

With clean hands, hold earplug between thumb and forefinger as shown. Roll and progressively compress the entire tapered end of the earplug to a small wrinkle-free cylinder.

2. INSERT

To ensure fitting, reach hand over head and gently pull ear upward and outward as shown. Insert compressed, tapered end of earplug well inside ear canal. Hold 30-60 seconds until earplug expands. Release, then push in again for 5 seconds to ensure fit.

HEARING LOSS FACTS

- Work-related hearing loss can be permanent but is also preventable¹
- Occupational hearing loss, primarily caused by high noise exposure, is the most common U.S. work-related illness²
- According to a study by the CDC, the mining sector had the highest prevalence of workers with any hearing impairment, and with moderate or worse impairment, followed by the construction and manufacturing sectors.³

² STATISTICS FROM THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA)

³ NIOSH. "NEW STUDY DETAILS PREVALENCE OF HEARING LOSS AMONG NOISE-EXPOSED MINING, AND OIL AND GAS EXTRACTION WORKERS", AUGUST 2019. [HTTPS://WWW.CDC.GOV/NIOSH/UPDATES/UPD-08-27-19.HTML](https://www.cdc.gov/niosh/updates/upd-08-27-19.html)

Disposable Earplugs

One of the most common types of hearing protection, disposable earplugs form to the ear when inserted. Lightweight, easy to store and convenient to keep on hand, they come in a variety of sizes and many have a tapered shape for all-day comfort.

WHAT IS NRR?

NRR, or Noise Reduction Rating, is a designation given in decibels (dBA) based on laboratory tests designed to estimate the passive noise reduction of the earplug or earmuff. A higher NRR means higher noise reduction effectiveness.*

The Safety Director® Comfort Fit™

- NRR: 33 dBA
- Tapered foam design provides better protection, superior fit and easy insertion
- Molded, smooth outer surface for hygiene and comfort
- 10 boxes per case

Part Numbers:
Uncorded (200 pairs) • 290010
Corded (100 pairs) • 290020

The Safety Director® Comfort Plus®

- NRR: 32 dBA
- Low pressure, foam, multi-colored, comfortable, great for extended wear
- Molded, smooth outer surface for hygiene and comfort
- 10 boxes per case

Part Numbers:
Uncorded (200 pairs) • 290030
Corded (100 pairs) • 290040

Moldex® Soothers™

- NRR: 33 db
- Hydrates and moisturizes for all day comfort
- Soft foam and tapered shape for added comfort

Part Number:
Uncorded (200 pairs) • 615167

Moldex® SparkPlugs® PlugStation®

- NRR: 33 db
- Click mechanism ensures earplugs drop right into the palm of your hand
- Earplugs fit snugly to gently seal the ear canal

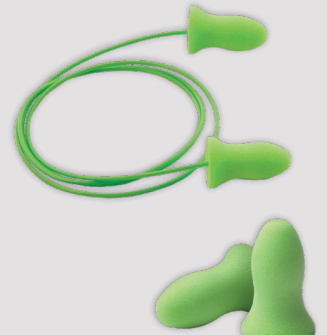

Part Numbers:
250 pairs • 293220
500 pairs • 293230
Magnetic PlugStation® Bracket • 615168

Moldex® SparkPlugs®

- NRR: 33 db
- Extra-soft, low-pressure foam for comfort and fit
- Shaped to fit even small ear canals

Part Numbers:
Uncorded (200 pairs) • 293210
Corded (100 pairs) • 293200

Moldex® Meteors®

- NRR: 33 db
- Soft, slow recovery foam and contoured shape molds easily to the ear canal for all day comfort
- Contour shape means less pressure at the smallest diameter of the ear canal

Part Numbers
Uncorded (200 pairs) • 8301295
Corded (100 pairs) • 8303522

Honeywell Howard Leight™ Max®

- NRR: 33 dB
- Offers highest NRR rating available in a pre-shaped foam earplug
- Smooth, soil-resistant outer skin

Part Numbers
Uncorded (200 pairs) • 292020
Corded (100 pairs) • 29200

Honeywell Howard Leight™ Max Lite®

- NRR: 30 dB
- Comfortable for virtually all ear canals and in all-day use environments
- Low pressure foam protects for many industrial environments

Part Numbers
Uncorded (200 pairs) • 292120
Corded (100 pairs) • 292100

3M™ E-A-R Classic®

- NRR: 29 dBA
- Bright yellow, cylindrical polymer foam can be easily rolled and inserted to fit almost any ear canal
- 10 boxes per case

Part Numbers:
Uncorded (200 pairs) • 291200
Corded (100 pairs) • 291210

3M™ E-A-R™ EXPRESS™ Pod Plugs™

- NRR: 25 dB
- Paddle-style grips provide quick, clean and consistent placement of earplugs

Part Numbers
Uncorded (100 pairs) • 8301591
Corded (100 pairs) • 8312608

3M™ E-A-R™ UltraFit™

- NRR: 28 dB
- Blue stem makes insertion and removal cleaner and easier
- All-day hearing comfort, convenience and protection

Part Numbers:
Uncorded (100 pairs) • 8301492
Corded (100 pairs) • 29180

Reusable Earplugs

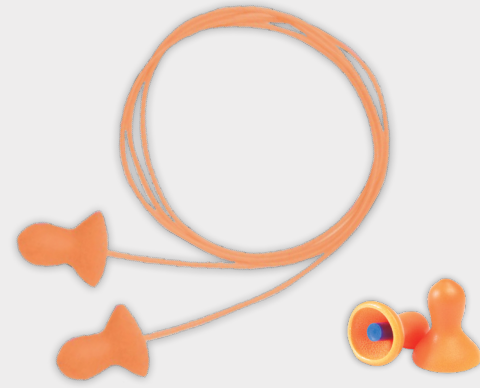

Pre-formed for the ear canal, reusable earplugs are easily cleaned in soap and water and can be used many times — making them an economical choice. Ours are available in a variety of shapes, so they fit comfortably in a range of ear sizes.

3M™ E-A-R Skull Screws™

- NRR: 32 dB
- Push-to-fit style means no earplug roll-down is required for easy fitting
- Soft foam tips feel comfortable for extended wear

Part Numbers:
 Uncorded (120 pairs) • 8301539
 Corded (120 pairs) • 8300850

Honeywell Howard Leight™ Quiet® Reusable

- NRR: 26 dB
- Patented “no-roll” design is easy to handle and fit
- Built-in insertion stem makes insertion quick and easy

Part Numbers:
 Uncorded (100 pairs) • 292400
 Corded (100 pairs) • 292410

3M™ E-A-R™ UltraFit™

- NRR: 25 dB
- Soft polymer is washable and reusable, reducing cost and waste
- Pre-molded, triple flange earplugs fit comfortably in a wide range of ear sizes

Part Numbers:
 Uncorded (100 pairs) • 8301574
 Corded (100 pairs) • 291330

The Safety Director® DuraPlug™

- NRR: 27 dB
- Reusable plugs in economical 25-count dispenser
- Tapered design, soft attenuating shell around a pocket of air for comfort

Part Number:
 Corded (25 pairs) • 290070

Moldex® Rockets Reusable

- NRR: 27 dB
- Easy grip, comfortable design

Part Numbers:
 Uncorded (50 pairs) • 293610
 Corded (50 pairs) • 293600

Honeywell Howard Leight™ AirSoft®

- NRR: 27 dB
- Advanced air pocket design features internal noise-blocking fins
- Rounded flanges, tapered shape fits better in the ear canal

Part Numbers:
 Corded (100 pairs) • 292330

Honeywell Howard Leight™ Fusion®

- NRR: 27 dB
- FlexiFirm stem is easy to grasp, ensures easy insertion into the ear canal
- Cleans with soap and water, lasts for multiple days

Part Numbers:
 Corded (100 pairs) • 292710

Metal Detectable

Metal Detectable earplugs help to prevent contamination in industries such as food manufacturing. These earplugs commonly contain a stainless-steel bearing inside each earplug recognized by most metal detectors.

Respiratory Protection

Having the right respirator can help provide defense against harmful fumes and airborne contaminants — including dust, fog, smoke, mist, gases and vapors. We sell a variety of respiratory products that will help you protect your employees while they're working in hazardous environments.

APPAREL TYPES

- Disposable respirators
- Reusable respirators
- Cartridges and filters

DID YOU KNOW?

OSHA 29 CFR 1910.134 (A) (1) STATES

"In the control of those occupational diseases caused by breathing air contaminated with harmful dusts, fogs, fumes, mists, gases, smokes, sprays, or vapors, the primary objective shall be to prevent atmospheric contamination. This shall be accomplished as far as feasible by accepted engineering control measures (for example, enclosure or confinement of the operation, general and local ventilation, and substitution of less toxic materials). When effective engineering controls are not feasible, or while they are being instituted, appropriate respirators shall be used pursuant to this section."

OSHA 29 CFR 1910.134 (A) (2) STATES

"A respirator shall be provided to each employee when such equipment is necessary to protect the health of such employee. The employer shall provide the respirators which are applicable and suitable for the purpose intended. The employer shall be responsible for the establishment and maintenance of a respiratory protection program, which shall include the requirements outlined in paragraph (c) of this section. The program shall cover each employee required by this section to use a respirator."

DISCLAIMER: PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

Disposable Respirators

Designed to be discarded after use, disposable masks and respirators provide short-term protection from airborne particulates. N95 respirators are also designed to have a filter efficiency level of 95% or greater, while general purpose masks filter out dust and mild irritants.

The Safety Director® N95

- Provides basic respiratory protection from particulates free of oil
- Adjustable contoured nosepiece and soft open cell foam nose cushion
- Valve option provides easy-breathing exhalation and increases airflow for improved comfort
- 12 boxes per case

Part Numbers:
20 count box • 305050 10 count box with valve • 305060

The Safety Director® Nuisance Dust Mask

- Lightweight mask protects against non-toxic, nuisance dusts
- Used for comfort only, does not provide respiratory protection
- Heavy duty single elastic strap and adjustable nosepiece for comfort
- 12 boxes per case

Part Number: 50 count box • 305040

Moldex® 2300 N100 with Valve

- 99.97% effective against non-oil based particulates
- HandyStrap® allows mask to conveniently hang around neck when not in use
- Valve lets hot air out faster for easy breathing
- 6 boxes per case

Part Number: 10 count box • 8303511

3M™ 8210 N95

- NIOSH approved for at least 95% filtration efficiency against certain non-oil based particles
- Two-strap design with welded dual point attachment helps provide a secure seal
- Cushioning nose foam
- Lightweight construction promotes greater worker acceptance and may help increase wear time
- Advanced electrostatic media is designed for ease of breathing
- 8 boxes per case

Part Number: 20 count box • 304120

Moldex® 2200 N95

- Dura-Mesh® shell resists collapsing in heat and humidity
- Molded nose bridge with foam cushion seals easily without a metal noseband
- Softspun® lining for increased comfort and durability
- NIOSH certified to have a filter efficiency of 95% or greater for non-oil based particulates
- No valve: 12 boxes per case
- With valve: 10 boxes per case

Part Numbers:
20 count box • 300200 10 count box with valve • 300220

3M™ 8511 N95 with Valve

- NIOSH approved for at least 95% filtration efficiency against certain non-oil based particles
- 3M™ Cool Flow™ Exhalation Valve helps reduce heat build-up inside the respirator
- M-Noseclip adjusts easily for fewer pressure points and greater comfort
- 8 boxes per case

Part Number: 10 count box • 304200

Reusable Respirators

Reusable respirators work by removing vapors, gases and particulates from the air through replaceable cartridges, filters or a combination of both. They are available in full-face or half-face models and come in a variety of sizes to fit most users.

3M™ 6000 Series Half-Face

- Combines comfort and convenience
- NIOSH approved for negative pressure air purifying and supplied air dual airline applications
- Can be disassembled, cleaned and reused

Part Numbers:
S • 304950 M • 30496 L • 30497

3M™ 6000 Series Full Face

- Lightweight well-balanced design and silicone face seal for enhanced comfort, durability and ease of cleaning
- Available in air-purifying and supplied air respirator modes
- Center adapter directs exhaled breath downward

Part Numbers:
M • 8301547 L • 8301515

MSA Advantage 200 LS Series Half Face

- Patented MultiFlex® system in a lightweight, softer, more pliable combination of rubber and plastic
- Multiflex system equalizes facial pressure
- AnthroCurve™ conforms to each user's face

Part Numbers:
S • 306000 M • 306010 L • 306020

MSA Advantage 3000 Series Full Face

- Advantage® twin-port facepiece features a wraparound optically-correct, scratch-resistant coating lens
- Soft, pliable silicone facepiece and rubber head-harness with pre-adjustable straps
- Uses Advantage® bayonet-style cartridges

Part Numbers:
M • 30656 L • 8303614

Apparel

Keeping your employees safe from workplace hazards starts with choosing the right protective apparel based on your needs. From high-visibility garments and disposable coveralls to protective sleeves, aprons and lab coats, Cintas has the safety apparel you need — and your team will appreciate the comfort and convenience on the job.

APPAREL TYPES

- Disposable wear
- Aprons
- Coveralls
- Sleeves
- Lab coats
- Rainwear

THE DIFFERENCE IS IN THE DETAILS

Finding the PPE you need quickly is important, so your employees can be protected and stay productive. Our disposable apparel in **The Safety Director®** brand are packaged clearly, so your employees can find what they need. The icons and product names in English, Spanish and French help make it easy for everyone to find the PPE they need and get back to work.

DISCLAIMER: PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

Disposable Wear

Lightweight and breathable, our hair and beard covers offer snug, secure coverage — while our shoe covers help reduce the risk of tracking potential contamination into your facility.

BEARD COVERS

The Safety Director® Polypropylene Beard Covers

- 1000 per case, white
- Light weight breathable fabric that provides economical protection

Part Number: 9701SSW

The Safety Director® Nylon Beard Nets

- 100 per case, white
- Part Number: 9702SSW

HAIR COVERS

The Safety Director® Nylon Hairnets

- 1000 per case, white or brown
- Lightweight for breathability, while maintaining snug, full coverage

Part Numbers:
 ○ 21" • 970521W 24" • 970524W 28" • 970528W
 ● 21" • 970521BR 24" • 970524BR

 ○ L • 9707LW XL • 9707XLW

Aprons

Ideal for applications that don't require full body coverage, our aprons provide a protective barrier against particles and liquid spills and are strong enough to resist tears and punctures.

The Safety Director® Water-resistant Polyethylene Bib Style Aprons — 2 Mil

- Full bib style provides economical protection
- 500 per case, white or blue
- 28" x 46"

Part Numbers:

- 97002B ○ 97002W

Neoprene Apron

- Provides protection from a wide range of chemicals such as acids, caustics, solvents and oils
- Rust proof grommets, reinforced bib and hemmed overedge
- Thickness between 18–20 Mil
- Sold in packs of 12
- 4 dozen per case

Part Number: 360250

Vinyl Apron

- Vinyl, 6 Mil thickness with raw edge and string ties
- Blue, 6 dozen per case
- 35" x 45"

Part Number: 8304259

DuPont™ Tyvek® 400 Bib Apron

- Neck loop and waist ties, bound seams
- 100 per case, white
- 28" x 36"

Part Number: 8309918

Coveralls

Disposable coveralls provide protection against splashes and particles in controlled environments — helping you keep your employees **ready™** to perform their jobs.

Microporous Coveralls

- Lightweight and breathable material
- Protection against dirt, liquid splashes and particles
- Comfortable and strong in either wet or dry environments
- 25 per case

Sleeves

Keeping your workers safe from cuts, abrasions and spills is crucial. Sleeves are an effective way to add a layer of protection between gloves and other protective clothing in light industrial work environments.

DISPOSABLE SLEEVES

The Safety Director® Polypropylene Sleeves

- 18" length
 - Elastic top and wrist
 - 200 pieces per case, white
- Part Number: 970918W

The Safety Director® Water-resistant Polyethylene Sleeves

- 18" length
 - 1 Mil
 - Elastic top and wrist
 - 1000 pieces per case, white or blue
- Part Numbers: ● 970818B ○ 970818W

PermaGard™ Sleeves

- 18" length
 - Protection against dirt, light liquid splashes and particles
 - Elastic top and wrist
 - 200 pieces per case, white
- Part Number: 569059

Tyvek® Sleeves

- 18" length
 - Protection against dirt, light liquid splashes and particles
 - Elastic top and wrist
 - 200 pieces per case, white
- Part Number: 8301432

PROTECTIVE SLEEVES

Cut Pro Dyneema® 18"

- 10 gauge 2-ply spun Dyneema
 - 18" length
 - Gusseted bicep and elastic ends for a snug fit
 - Made from component materials that comply with Federal regulations for food contact 21
 - Sold individually
- Part number: 1733801

Cut Pro Dyneema® 18" with Thumb Hole

- 10 gauge 2-ply spun Dyneema
 - 18" length
 - Gusseted bicep and elastic ends for a snug fit
 - Made from component materials that comply with Federal regulations for food contact 21
 - Sold individually
- Part number: 1733800

DuPont™ Kevlar® Sleeves

- 100% Dupont Kevlar brand fibers
 - Soft and comfortable
 - ANSI Cut Level A3
 - 18" x 3¼"
 - Sold in packs of 10 pieces
 - 12 packs per case
- Part Numbers:
 14" W/O Thumb-hole • 8301228
 14" W/ Thumb-hole • 8301229
 18" W/O Thumb-hole • 1726630
 18" W/ Thumb-hole • 1733550

Lab Coats

Nothing conveys professionalism like a crisp, white lab coat. Our wide selection will help you promote a clean environment in your laboratory and help you keep your technicians working safely and comfortably.

Polypropylene Lab Coat

- Elastic wrists and snap front
- Single collar
- Latex free and lightweight
- No pockets
- Disposable
- White
- 30 per case

Part Numbers:

M • 8302823 L • 8302822 XL • 8302824 2X • 8302821

DuPont™ Tyvek® 400 Labcoat

- Long sleeve, open wrists
- Mandarin collar and two pockets
- Front snap closure, extends below hip
- Serged seams
- 30 per case

Part Numbers:

S • 72543 M • 72175 L • 72544 XL • 8302358
2X • 8302359 3X • 8312663

CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

High Visibility Apparel — Types and Classes

ANSI 107-2020 is the current industry consensus standard for High Visibility Safety Apparel (HVSA). The standard designates garment Types for HVSA based on the expected work environment of the wearer. The standard specifies Performance Classes within each type in terms of the minimum area of high visibility materials to be incorporated in the garment.

TYPE O (Off-road)

Meant for off-road applications. Provides added daytime and nighttime visual enhancement for workers in occupational environments which pose struck-by hazards from moving vehicles, equipment and machinery, but which will not include exposure to traffic on public access roadway rights-of-way or roadway temporary traffic control (TTC) zones.

TYPE R (Roadway)

Provides enhanced daytime and nighttime visual conspicuity for workers who are exposed to traffic. This includes exposure to vehicles using the highway for purposes of travel, roadway temporary traffic control (TTC) zones or from work vehicles and construction equipment within a roadway temporary traffic control (TTC) zone.

TYPE P (Public Safety)

Provides enhanced daytime and nighttime visual conspicuity for emergency and incident responders and law enforcement personnel in environments which include exposure to traffic. This Type provides additional options for emergency responders, incident responders, and law enforcement with competing hazards or who require access to special equipment.

PERFORMANCE CLASS 1 (Type O Only)

Provides the minimum amount of high-visibility materials required to differentiate the wearer visually from noncomplex work environments, in scenarios which the struck-by hazards will not be approaching at roadway speeds, and therefore operative detection and identification distances in the work environment can be shorter than in other situations without compromising safety.

PERFORMANCE CLASS 2 (Type R & Type P)

Provides for the use of additional amounts of high-visibility materials, which may allow design opportunities to define the human form more effectively. Performance Class 2 HVSA have the potential to provide longer detection and identification distances, and increased conspicuity performance compared to Performance Class 1 HVSA.

PERFORMANCE CLASS 3 (Type R & Type P)

Performance Class 3 can offer greater visibility to the wearer in both complex backgrounds and through a full range of body movements by mandatory placement of background, retroreflective and combined-performance materials on sleeves and pant legs (if present). Regardless of the area of materials used, a sleeveless garment or vest alone shall not be considered Performance Class 3.

SUPPLEMENTAL CLASS E

Class E apparel includes pants, bib overalls, shorts, and gaiters. These garments are not ANSI compliant for the purposes of meeting HVSA PPE requirements, though, when combined with Class 2 or Class 3 apparel, the combination satisfies Class 3 requirements.

PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. - Orange M • 91140M L • 8314366 XL • 8314367 2X • 91140XL2 3X • 91140XL3

Additional Vests

Mesh Safety Vest – No Stripes

- Does not satisfy ANSI 107 visibility requirement for Hi-Vis garments
- Breathable polyester mesh fabric
- Hook & loop closure
- Side elastic for improved comfort and fit
- One size fits most

Part Numbers:

- Lime 576906
- Orange 583668

One Pocket Mesh Safety Vest

- Does not satisfy ANSI 107 visibility requirement for Hi-Vis garments
- Breathable polyester mesh fabric
- Hook & loop closure
- Side elastic for improved comfort and fit
- 1" reflective silver tape
- One size fits most

Part Numbers:

- Lime 8315216
- Orange 608638

Orange Mesh Vest

- Does not satisfy ANSI 107 visibility requirement for Hi-Vis garments
- 1" reflective yellow stripes on front and back
- 100% polyester mesh
- Elastic side straps
- Front closure with hook and loop material

Part Number:

- Orange 8309840

Women's Vests

Women's Surveyors Vest

- ANSI Type R Class 2
- High visibility surveyors style vest with mesh back specifically designed for women
- Contrasting striping
- Heavy duty radio tabs and 7 full size pockets including a radio pocket, chest pocket, 2 waist pockets, 2 inside pockets
- Includes 4 pen pockets
- Drawstring adjustable waist
- Side zippers allow relief from binding
- Heavy duty zipper closure

Part Numbers:

- Lime S • 9102GS M • 9102GM L • 9102GL

Women's Mesh Vest

- ANSI Type R Class 2
- High visibility yellow polyester mesh vest specifically designed for women
- Zipper closure
- DOT striping
- Drawstring adjustable waist
- Includes six pockets, two chest and four on the waist
- Radio tabs
- Side zippers allow relief from binding

- ANSI/ISEA Z89.1-2014, Type 1, Class E (standard) or Type 1, Class C (vented)
- CSA Z94.1-15 Type 1, Class E (standard) or Type 1, Class C (vented)

Part Numbers:

Vented, Wheel Ratchet Suspension

- Yellow • 6606HVYLW

ION CHILL™

- 10 gauge acrylic shell
- Latex coated palm and fingertips
- 6 dozen per case

Part Numbers:

- S • 1719510 M • 1719520 L • 1719530 XL • 1719540
- 2X • 1719550

M-Pact®

- Thermoplastic Rubber (TPR) knuckle protection
- Meets EN 13594 impact standard
- Sold by the pair — 60 pairs per case

Part Numbers:

- M • 8311883 L • 8311884 XL • 8311885 2X • 588823

M-Pact® E5

- ANSI cut level A5
- Thermoplastic Rubber (TPR) absorbs heavy impact and meets EN 13594 impact standard
- D3O® palm padding to help reduce hand fatigue
- Sold by the pair — 48 pairs per case

Part Numbers: 10 • 588680 11 • 588681

HARD HAT NECK SHADE

- Fits regular and full brim hard hats
- Provides airflow, shade and visibility
- One size fits most

Part Numbers:

- Orange • 616789 ● Yellow • 591695

Head Protection

Whether they're used to protect against falling objects or to help reduce the danger of electrical shocks and burns, reliable head protection is a critical component of your safety equipment arsenal. Count on Cintas to help you keep your workers safer with our selection of hard hats, bump caps and accessories from leading manufacturers.

HEAD PROTECTION TYPES

- Cap style hard hats
- Full brim hard hats
- Bump caps
- Face shield brackets
- Accessories

DID YOU KNOW?

OSHA 29 CFR 1910.135 (A) (1) STATES

"The employer shall ensure that each affected employee wears a protective helmet when working in areas where there is a potential for injury to the head from falling objects."

OSHA 29 CFR 1910.135 (A) (2) STATES

"The employer shall ensure that a protective helmet designed to reduce electrical shock hazard is worn by each such affected employee when near exposed electrical conductors which could contact the head."

ASK ABOUT OUR HARD HAT LOGO PROGRAM

You can use different colored hard hats and logos to distinguish between employees, contractors and visitors.

DISCLAIMER: PURSUANT TO OSHA REGULATIONS, 29 CFR 1910.132 (SUBPART I), AN EMPLOYER BEARS SOLE RESPONSIBILITY FOR SELECTING THE TYPE(S) OF PERSONAL PROTECTIVE EQUIPMENT TO BE USED BY ITS EMPLOYEES. ALL PURCHASERS OF PERSONAL PROTECTIVE EQUIPMENT FROM CINTAS BEAR FULL RESPONSIBILITY FOR SELECTING THE PPE APPROPRIATE FOR USE BY THEIR EMPLOYEES. CINTAS EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

Categories of Head Protection

HARD HATS

- All hard hats in this brochure meet the requirements outlined in ANSI/ISEA Z89.1-2014
- Designed to protect from falling objects and electrical shock (class dependent)
- Typically consist of a shell and the suspension that work together as a system

BUMP CAPS

- Bump Caps are great for applications where hard hats are not required, but some protection from minor bumps and scalp lacerations are needed
- Typically made with a lightweight plastic shell
- Sometimes designed to look similar to a low-profile baseball cap
- Does NOT meet ANSI standards for head protection

Electrical Classes of Hard Hats

The ANSI/ISEA Z.89.1-2014 Standard categorizes hard hats in the classes and electrical ratings listed below.

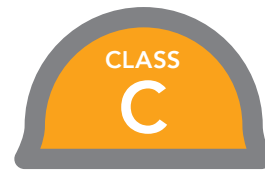

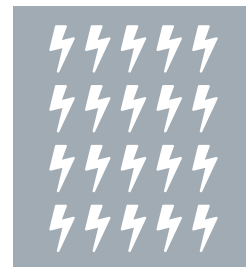

GENERAL

Proof-tested at 2,200 volts

ELECTRICAL

Proof-tested at 20,000 volts

CONDUCTIVE

No electrical protection

Types of Hard Hats

The ANSI/ISEA Z.89.1-2014 Standard divides hard hats into two categories for impact protection:

TYPE I

Intended to reduce the force of impact resulting from a blow only to the top of the head

TYPE II

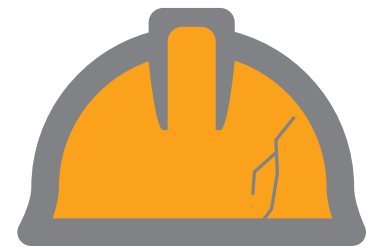

Includes a foam liner between the shell and the suspension. Intended to reduce the force of lateral impact from the sides or top of the head

Hard Hat Daily Inspection

For care and maintenance guidance, you should reference the manufacturer's care and maintenance instructions. Many manufacturers recommend a daily inspection and to replace any hard hat demonstrating:¹

- Signs of breakage, cracks, discoloration or chalky appearance on the shell
- Brittleness — you can check by flexing the brim
- Signs of cracks, breaks, frayed straps or damaged stitching on the suspension

If any of these conditions exist, following the manufacturer's guidelines for replacing the helmet or suspension before use.

Care and Maintenance

For care and maintenance guidance, you should reference the manufacturer's care and maintenance instructions. Many manufacturers recommend following these steps to make sure your hat is well cared for:²

- Clean your hat regularly with mild soap and warm water. Avoid harsh detergents.
- Do not use paints, solvents or hydrocarbon-type cleaners such as M.E.K., thinner, gasoline or kerosene on your hat as they can cause unnoticeable damage.
- Do not throw it, sit on it or use it as a support. Avoid dropping your hat.
- When not in use, store your hat in a clean, dry area in temperatures that do not exceed 120 degrees Fahrenheit.
- Hard hats should not be kept on the rear window shelf of an automobile, in the bed of pickup or in direct sunlight.
- Hard hat replacement: Most manufacturers recommend replacing your hat every 2-5 years, and replacing the suspension every 12 months.

Hard Hats

Hard hats are commonly used in the industrial, utility, oil and gas and construction industries. Thanks to new technology, hard hats are now more comfortable and breathable — with cooling vents for better circulation and lightweight designs for reduced fatigue.

HARD HAT CLASSES

Class E (Electrical): Provides ANSI Z89.1 impact protection and proof tested at 20,000 volts.

Class G (General): Provides ANSI Z89.1 impact protection and proof tested at 2,200 volts.

Class C (Conductive): Provides ANSI Z89.1 impact protection. Not tested for electrical resistance.

CAP STYLE

MSA V-Gard® Cap

- ANSI/ISEA Z89.1-2014, Type 1, Class E (standard) or Type 1, Class C (vented)
- CSA Z94.1-15 Type 1, Class E (standard) or Type 1, Class C (vented). V-Gard® hard hats are ONLY CSA Z94.1-15 approved when equipped with Fas-Trac or 1-Touch suspensions
- Made of high-density polyethylene (HDPE) with UV inhibitor
- 20 per case

Part Numbers:

Fas-Trac® III Suspension

- 6607BLU ○ 6607WHT ● 6607YLR ● 6607GRN

Vented, Fas-Trac® III Suspension

- 6609BLU ○ 6609WHT ● 6609YLR

Staz-On® Suspension

- 6608BLU ○ 6608WHT ● 6608YLR

Dynamic Whistler™ Cap

- ANSI/ISEA Z89.1-2014, Type 1, Class E (standard) or Type 1, Class C (vented)
- CSA Z94.1-15 Type 1, Class E (standard) or Type 1, Class C (vented)
- Lightweight shell made with UV stabilized High Density Polyethylene (HDPE)
- 4-point suspension with strong textile straps and crown comfort pad
- Easy height adjustment for a precise fit
- Shell has a rain trough for extra convenience in adverse weather conditions
- 12 per case

Part Numbers:

Wheel Ratchet Suspension

- 6601BLU ○ 6601WHT ● 6601YLR ● 6601GRN

Vented, Wheel Ratchet Suspension

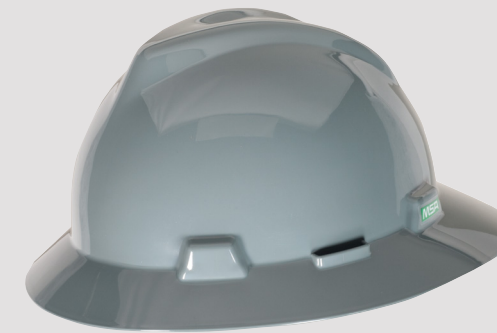

- 6603BLU ○ 6603WHT ● 6603YLR

Pin-lock Suspension

- 6602BLU ○ 6602WHT ● 6602YLR

FULL BRIM

MSA V-Gard® Full Brim

- ANSI/ISEA Z89.1-2014, Type 1, Class E (standard) or Type 1, Class C (vented)
- CSA Z94.1-15 Type 1, Class E (standard) or Type 1, Class C (vented). V-Gard® hard hats are ONLY CSA Z94.1-15 approved when equipped with Fas-Trac or 1-Touch suspensions
- Made of high-density polyethylene (HDPE) with UV inhibitor
- 20 per case

Part Numbers:

Fas-Trac® III Suspension

- 6610BLU ○ 6610WHT ● 6610GRN

Vented, Fas-Trac® III Suspension

- 6612WHT ● 6612YLR

Staz-On® Suspension

- 6611WHT

Dynamic Kilimanjaro™ Full Brim

- ANSI/ISEA Z89.1-2014, Type 1, Class E (standard) or Type 1, Class C (vented)
- CSA Z94.1-15 Type 1, Class E (standard) or Type 1, Class C (vented)
- Lightweight shell made with UV stabilized High Density Polyethylene (HDPE)
- 4-point suspension with strong textile straps and crown comfort pad
- Easy height adjustment for a precise fit
- 12 per case

Part Numbers:

Wheel Ratchet Suspension

- 6604BLU ○ 6604WHT ● 6604GRN

Vented, Wheel Ratchet Suspension

- 6606WHT ● 6606YLR

Pin-lock Suspension

- 6605WHT

Bump caps

Generally worn by contractors, inspectors, warehouse workers and exterminators, bump caps offer light protection from minor bumps, scrapes and cuts. They have a lower profile than hard hats, so they don't get in the way when working in confined spaces or near overhead piping.

BALL CAP

JSP HardCap A1+™ Bump Cap

- Does not meet ANSI or CSA standards for use as a hard hat
- For applications where hard hats are not required, but some protection from minor bumps and scalp lacerations is preferred
- Ultra sleek, low-profile baseball cap design
- The protective HDPE liner is removable, so the outer cap is fully washable with a plastic brim
- Mesh panels on the cap and terry cloth sweatband provide coolness and comfort
- 20 per case

Part Numbers:

- 8306356 ● 8308846 ● 570680

PLASTIC CAP

Pyramex Ridgeline Bump Cap

- Does not meet ANSI or CSA standards for use as a hard hat
- For applications where hard hats are not required, but some protection from minor bumps and scalp lacerations is preferred
- 4-point glide lock suspension
- Ventilation holes and replaceable sweat band for cool comfort
- 16 per case

Part Numbers:

- 6614BLU ○ 6614WHT ● 6614YLW

Suspensions and Chin Straps

Accessories are designed to customize a hard hat for various tasks, enhancing comfort or protection on the job. Our choices include brackets that attach face shields to hats and attachable sweatbands that wick away perspiration before it gets into the eyes.

SUSPENSIONS

Replacement MSA Hard Hat Suspensions

Part Numbers:

- Fas-Trac® III Ratchet Suspension • 581475
- Staz-On® Non-Ratchet Suspension • 8303648

Replacement Dynamic Hard Hat Suspensions

Part Numbers:

- Replacement Ratchet Suspension • 6601SUSP
- Replacement Pinlock Suspension • 6602SUSP

CHIN STRAPS

Hard Hat Chin Strap

- Keeps helmet in place
- Flexible construction and adjustable design for long-wearing comfort
- J-style hook fits most hard hats

Part Number: 602797

Hard Hat Chin Strap With Chin Cup

- Elastic chin strap with chin cup for a comfortable fit
- Adjustable buckle on both sides to make length adjustment easy
- Quick clips design for easy installation on most hard hats on the market

Part Number: 606283

Earmuffs and Liners

EARMUFFS

JSP Surefit™ Contour Cap Mounted Earmuff — PAIR

- NRR: 21 dB
- Fits universal accessory slot
- Durable polystyrene ear cups pivot and slide for a secure seal

Part Number: 575098

MSA HPE Cap Mounted Earmuff — PAIR

- NRR: 27 dBA
- Designed specifically for very high noise levels in places like airfields or power plants
- Easy to adjust cups, even with gloves on
- Three distinct wearing positions

Part Number: 29401

MSA Sound Control SH — PAIR

- NRR 25: dBA
- Use with MSA slotted full brim helmet
- Easy ear cup height adjustment and spring design offers low pressure and a high level of comfort
- Retain the Class E dielectric rating on the V-Gard full brim hard hat

Part Number: 571309

LINERS

Classic Shoulder-length Sherpa Liner

- Sherpa lined for maximum warmth and comfort
- Built-In warming pockets lined with DuPont™ Tyvek®
- 2 layers: 100% Cotton Twill outer shell and 50% Acrylic / 50% Polyester Sherpa lining

Part Number: 320430

Classic Regular Length Quilted Liner

- Built-In warming pockets lined with DuPont™ Tyvek®
- 3 layers: 100% Quilted Nylon Shell, 4mm foam center layer, and Fleece lining

Part Number: 589105X

Value Regular Length Twill Liner

- 100% Cotton Twill
- No insulated ear barrier

Part Number: 320400

Frames and Sweatbands

FRAMES

Universal Face Shield Brackets

- Brackets fit most manufacturers' hard hats
- Accommodate a wide variety of face shields

Part Numbers:

- Aluminum (Cap Style) • CR102
- Aluminum (Full Brim) • 8310693
- Dielectric (Cap Style) • PYHHAN (pictured)
- Dielectric (Full Brim) • 8304053

MSA V-Gard® HDPE Frame

- Fits all MSA slotted cap
- Includes replaceable debris control which creates tight seal between frame and cap

Part Number: 8303610

MSA Universal HDPE Frame

- Heavy duty flat rubber strap allows easy and secure placement on all MSA hats, both cap and full brim
- Design allows use with other PPE, including earmuffs and respirators

Part Number: 566934

SWEATBANDS

Absorbent Cellulose Sweatband

- Anti-mold treated and pre-moistened
- Sold in packs of 25

Part Number: 320200

Terry Toppers® Snap-on Sweatband

- Easily attaches to most hard hat suspension with snaps
- Soft material made to absorb and wick away sweat

Part Number: 320330

Pyramex Ridgeline Bump Cap Sweat Band

- Fits Ridgeline bump cap

Part Number: 560932

Cleanup and Disposal

Spills happen in workplaces, but some pose more danger than others. We have the clean-up kits you need to quickly contain, absorb and dispose of accidental chemical, bodily fluid or battery acid spills.

BBP

Bloodborne Pathogen Kit

- Fast, efficient method for the absorption and disposal of blood and bodily fluids
- Plastic, wall-mountable, tamper-evident, single-use
- Contains:
 - Vinyl gloves
 - Red biohazard bag and twist tie
 - Odor mask
 - Red Z[®] solidifier
 - Scoop/scrapper
 - SaniZide Pro 1[®] wipe
 - p.a.w.s.[®] antimicrobial hand wipe
 - White disposal bag

Part Numbers:
BBP Kit • 250119 BBP Refill • 250100

BIOHAZARD

Sharps[®] and Biohazard Medical Waste

- Use to dispose needles, lancets, syringes and other sharps
- Proof of proper disposal is provided after destruction
- Will meet all US Postal Service requirements when properly packaged

Part Numbers:
1-Gallon Sharps[®] Start Up Mailback System • 250300
1-Gallon Replacement System • 250310
1-Gallon Wall Bracket • 592992
5-Gallon Hazardous Waste Mailback System • 25035

BATTERY ACID CLEANUP

The Safety Director[®] Battery Acid Spill Kit

- Neutralizes and absorbs up to a 2-gallon spill
- Contains:
 - (6) 2 lb cartons of acid neutralizer
 - (1) pair protective goggles
 - (1) face shield
 - (1) pair chemical resistant gloves
 - (1) pair chemical resistant boots
 - (1) mini dust pan and broom
 - (2) yellow disposal bags with ties
 - (1) disposable apron

Part Number: 360240

6.5 GALLON KIT

The Safety Director[®] 6.5 Gallon Spill Kit

- Absorbs up to a 6 gallon spill
- Contains:
 - (6) 3" x 48" chemical/hazmat socks
 - (5) 19" x 15" universal pads
 - (2) 40 oz cartons of universal sorbent
 - (2) yellow disposal bags with ties
 - (1) pair chemical resistant gloves
 - (1) pair protective goggles

Part Number: 360210

20 GALLON KIT

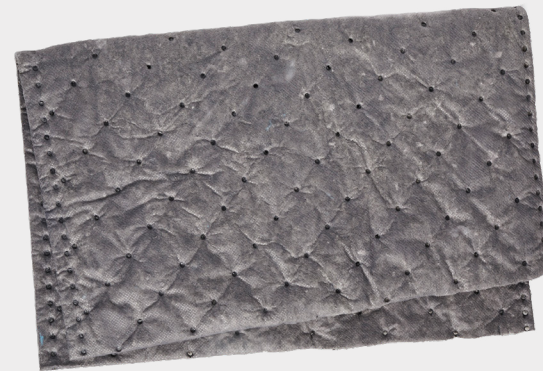

The Safety Director[®] 20 Gallon Spill Kit

- Absorbs up to a 12 gallon spill
- Contains:
 - (6) 3" x 48" chemical/hazmat socks
 - (6) 10" x 10" x 2" chemical/hazmat pillows
 - (5) 19" x 15" universal pads
 - (2) 40 oz cartons of universal sorbent
 - (3) yellow disposal bags with ties
 - (1) pair chemical resistant gloves
 - (1) pair protective goggles

Part Number: 36020

UNIVERSAL PADS

Hi-Capacity Sorbent Pads

- 100 pack
- 19" x 15" pads
- Industrial grade

Part Number: 360640

Signage

Having safety information clearly marked and prominently displayed is mandated by OSHA. Our high-quality, easy-to-mount signage supports your communication needs — helping you alert workers to hazards and issue reminders of policies and procedures.

FLAT SIGNS

Flat Safety Signs

- Plastic, includes holes for mounting

Part Numbers:

20" x 4":

Fire Extinguisher • 341980

10" x 14":

First Aid • 341960

Emergency Eye Wash Station • 341580

Eye Protection Required • 341900

Caution Hard Hat Required • 341920

18" x 12":

Wash Your Hands • 616605

3D SIGNS

3D Signs

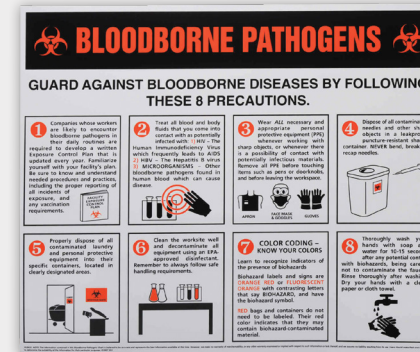

- Acrylic
- Includes holes for mounting
- Dimensional sign for increased visibility

Part Numbers:

First aid • PZV1FA03A

Eyewash • PZV1EW03A

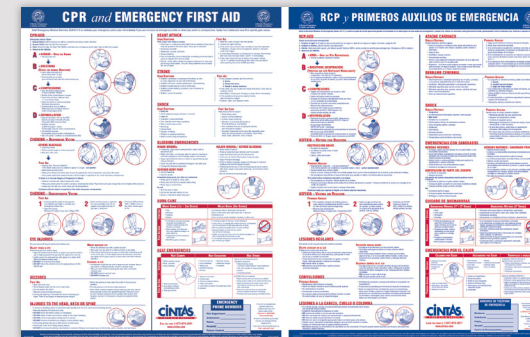

Fire extinguisher • PZV1FE15A

Bloodborne Pathogens Poster

- Lists the 8 most vital ways to take precautions to guard against bloodborne diseases

Part Number: 340800

First Aid and CPR/AED Poster, 22" x 28"

- Double sided and laminated with English on one side and Spanish on the other
- Helpful guide in case of an emergency

Part Number: 340789

Barricade Tape

- 2 mil, 3" x 1000'
- Bright color and clear text for high visibility
- Marks off and warns of danger sites

Part Numbers:

Danger, Red • 342010

Caution, Yellow • 342000 (pictured)

Additional Safety Products

Sanitizing and disinfecting is more important today than ever. Make sure your workplace has an ample supply of hand sanitizing wipes to help reduce the spread of germs and bacteria, as well as disinfecting wipes to kill viruses and bacteria on surfaces.

HAND SANITIZER

Germ-X® Hand Wipes

- 100 per box
 - Kills 99.99% of many common harmful germs and bacteria
 - Moisturizing with Vitamin E
 - Convenient individually packaged wipes
- Part Number: 616676

SURFACE DISINFECTANT

Lysol® Disinfecting Wipes

- Kills 99.9% of viruses and bacteria
 - Able to use on electronics
 - 80 count pack
 - 80 wipes per pack
 - 6 packs per case
- Part Number: 617989

Menstrual Hygiene

Providing menstrual hygiene products helps you keep your restrooms READY™. In the same way it is expected to have toilet paper and soap in bathrooms, expectations should be the same with menstrual hygiene products. Cintas offers a variety of products to meet your needs.

PADS AND TAMPONS

Maxithins® Maxi Pads
Part Number: 591969

Maxithins® Ultra Thin with Wings
Part Number: 618866

Tampax® Tampons
Part Number: 8307586

DISPOSAL

Evogen® No-Touch Combination Waste Receptacle
Part Number: 618867

Scensibles® Universal Poly Liners
Part Number: 618868

Personal Disposal Bags
Part Number: 618869

DISPENSER

Evogen® No-Touch Dual Menstrual Care Product Dispenser
Part Number: 618871

Necesities® Courtesy Dispenser
Part Number: 618870

Custom Logo PPE

With our logo program, you can add your company logo or slogan to the personal protection equipment you select for a custom look.

Hard Hats

- Logo(s) can be placed on the front, back or sides of the hard hat
- Image file for logo can contain up to four colors
- State-of-the-art pad printing for a high quality, long-lasting logo
- Lead time is 2-4 weeks upon customer approval of final proof

You can use different colored hard hats and logos to distinguish between employees, contractors and visitors

Sold in the following case quantities:

PIP HARD HATS

12 hats

MSA HARD HATS

20 hats

PIP BUMP CAPS

20 caps

PYRAMEX BUMP CAPS

16 caps

Eye and Face Protection

- Logos can be set up in multiple colors
- Lead time varies by brand upon customer approval of final proof
- Minimum order quantity required and may vary depending on the selected style

High Visibility Apparel

- Logos can be set up in multiple colors
- Logos are screen printed onto the back of your selected apparel
- 2-3 week lead time once logo is approved by you
- Minimum order quantity required depending on the selected apparel

Many customers include "Visitor" or "Contractor" on their logo apparel to help distinguish who is on a job site.

LOGO PROGRAM GARMENTS MAY NOT SATISFY ANSI REQUIREMENTS FOR HIGH VISIBILITY APPAREL. CUSTOMER SHOULD REFERENCE THE FULL ANSI STANDARD FOR MORE DETAILED INFORMATION WHEN MAKING PRODUCT DECISIONS AND IT IS CUSTOMER'S RESPONSIBILITY TO DETERMINE WHETHER LOGO PROGRAM GARMENTS SATISFY ANSI REQUIREMENTS FOR HIGH VISIBILITY APPAREL

WaterBreak® and Hydration

You have plenty of work to do, and we know how much you care about your team. Whether your employees are at risk of experiencing heat stress or just trying to stay properly hydrated on the job, we have the flexible solutions you need. Choose from several electrolyte options from leading brands, or talk to your rep about the WaterBreak®, a cleaner, more affordable water system and service.

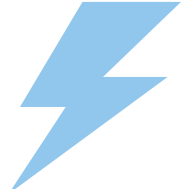

HYDRATION PRODUCTS INCLUDE:

- 145 Coolers and accessories
- 147 YETI®
- 149 Electrolytes

IT TAKES AT LEAST **450 YEARS** for a plastic bottle to completely degrade*

GLOBALLY, MORE THAN **1,000,000** plastic bottles are sold **EVERY SINGLE MINUTE***

A reusable water bottle, can save an average of **156** PLASTIC BOTTLES ANNUALLY*

BOTTLED WATER REQUIRES UP TO **2,000** TIMES THE ENERGY used to produce tap water*

*HOW THE PLASTIC BOTTLE WENT FROM MIRACLE CONTAINER TO HATED GARBAGE. (2019, AUGUST 19). NATIONAL GEOGRAPHIC. [HTTPS://WWW.NATIONALGEOGRAPHIC.COM/ENVIRONMENT/ARTICLE/PLASTIC-BOTTLES](https://www.nationalgeographic.com/environment/article/plastic-bottles)

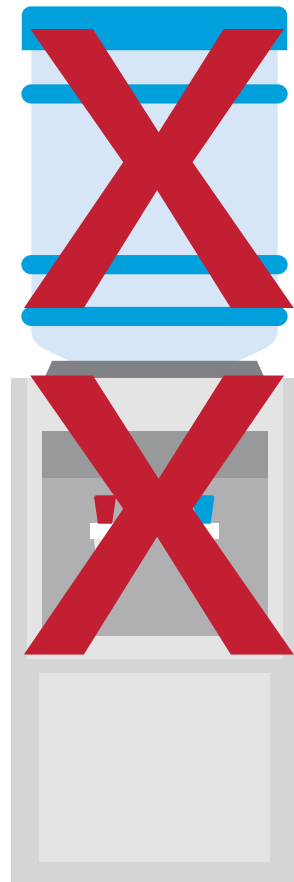

Workplace Hydration

STATISTICS

- Over 4 out of 5 employed Americans believe it is their employer's responsibility to provide a workplace water station that is cleaned and serviced regularly.*
- Nearly half of those without a workplace water station (46%) say they would be more productive at work if their employer provided a water station.*
- Among those who have a water station at work, a third do not believe the water filter at their workplace water station is changed regularly.*

OSHA 1926.51(A)(1)

An adequate supply of potable water shall be provided in all places of employment.

USING LARGE WATER BOTTLES?

Benefits of switching to WaterBreak®:

- Avoid lifting heavy bottles
- No need to worry about storage
- No unsightly bottles lying around
- Flat monthly billing
- Never run out of water
- No more dirty dispensers or drip trays

ALREADY HAVE A WATER COOLER?

Benefits of switching to WaterBreak®:

- No dirty drip tray buildup
- Regular filter changes
- Affordable price and no filter change fees
- Industry leading unit
- Flat monthly billing
- Consistently clean and professional look

BENEFITS OF SERVICE

- Internal drain bottle or drip tray emptied
- Filter changed annually and as needed
- Unlimited water at your fingertips
- Each unique barcode scanned to maintain service record

*THIS SURVEY WAS CONDUCTED ONLINE WITHIN THE UNITED STATES BY HARRIS POLL ON BEHALF OF CINTAS FROM JULY 28-AUGUST 1, 2017 AMONG 1,081 U.S. ADULTS AGES 18 AND OLDER WHO ARE EMPLOYED FULL TIME/PART TIME

WaterBreak®

HandsFree foot pedal attachment
(cold water only) • 617363

The WaterBreak® Premium

- Closed water system for cleaner operation
- Hot, cold and room temperature water
- Hot water safety feature
- 2x cooling ability compared to leading units
- Self-draining drip tray (1½ gallon)
- Weight: 53 lbs, dimensions: 12.6" x 13.4" x 43.7"

Part Number: 700003

HandsFree Foot Pedal Attachment • 617363

The WaterBreak® Countertop

- Hot, cold and room temperature water
- Closed water system for cleaner operation
- Hot water safety feature
- Polymer cabinet won't rust or scratch countertop
- Less than 17" tall, fits under most kitchen cabinets
- Fits large coffee containers & sport bottles
- Weight: 30 lbs, dimensions: 13.3" x 14.5" x 16.9"

Part Number: 700003CT

BENEFITS OF FILTER AND DRAIN SYSTEM

- Reduces the occurrence of lead, chlorine and odor
- Improves the taste and appearance of drinking water
- Provides water that is virtually free of sediment, dirt and rust
- 1½ gallon bottle and hose captures excess fluid
- Unique drain bottle feature helps prevent build up and overflow in drip tray

Automated External Defibrillators (AEDs)

A prompt response can be the difference between life and death. Start by equipping your business with industry-leading AED technology and professional onsite training and service.

Cintas provides products and solutions to help you respond to an emergency and help prevent serious injuries or death.

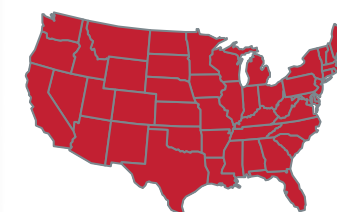

AED PRODUCTS INCLUDE:

155 AED units

159 AED electrodes and batteries

MORE THAN
356,000
out-of-hospital sudden cardiac arrest events occur each year in the US;
90% ARE FATAL¹

Every state has Good Samaritan laws in place
TO PROTECT
bystanders who use an
AED to resuscitate
an SCA victim²

When CPR and an AED are administered to a victim within the
FIRST TWO MINUTES
of a cardiac event, the chances of survival
increase 90%³

LifeREADY 360™, Powered by RESCUESTAT

Be READY™ for sudden cardiac arrest

It takes a lot more than an AED to save a life. Proper planning, implementation, ongoing support and routine onsite service checks can be critical in helping ensure the AED works when you need it most.

PLANNING

You determine the type, location and number of AEDs needed for your business

IMPLEMENTATION

Your AEDs and accessories you select are professionally installed

Receive a discounted rate on training

SUPPORT

Pad and battery replacement

Software upgrades

Ongoing LifeREADY 360™ support*

Your subscription to LifeREADY 360™ includes a medical prescription along with the following:

- **Medical Direction or Physician Oversight** — by using the LifeREADY 360™ portal, your AED program and activity will be overseen by the Stat PADS team.
- **AED Placement Reporting/EMS Registrations** — your AED program information will be registered with local and/or state EMS agencies (as may be required) in an effort to enhance and expedite emergency responder response times to a cardiac emergency.
- **Tracking Software** — The LifeREADY 360™ portal provides visibility into ongoing maintenance and emergency readiness status of each AED — you can log your AED checks, expiration dates and even keep track of your certified first responders' training.
- **AED Program Design Guide** — LifeREADY 360™ provides a "design guide" to walk you through the process of developing an AED program for your organization/facility.

*DISCLAIMER: CUSTOMER MUST OBTAIN A PRESCRIPTION FOR THE AED DEVICE(S) AND THE AED DEVICE(S) MUST BE SUBJECT TO MEDICAL OVERSIGHT. CINTAS IS NOT A HEALTH-CARE PROVIDER AND DOES NOT ISSUE THE PRESCRIPTION, PROVIDE MEDICAL OVERSIGHT, OR PROVIDE OTHER RELATED HEALTH-CARE OR MEDICAL SERVICES. RATHER, WHEN EXECUTING A SERVICE AGREEMENT, CUSTOMER RECEIVES ACCESS TO A THIRD-PARTY, AT NOT ADDITIONAL COST TO CUSTOMER, WHO PROVIDES A PRESCRIPTION FOR THE AED DEVICE(S), PROVIDES MEDICAL OVERSIGHT YOU NEED IT MOST.

AED Units

The AED 3® by ZOLL®

- Easy to navigate large color LCD screen
- Simple to operate with clear one-touch buttons
- Real CPR Help® guides rescuers in delivering high-quality CPR consistent with current guidelines
- Enhanced bar gauge lets rescuers see when they are doing quality CPR

Part Numbers:

AED 3® by Zoll® • 4003Z
 CPR Uni-padz™ electrodes • 616852
 ZOLL® AED 3® Disposable Lithium Manganese Dioxide Battery • 616853

DID YOU KNOW?

All 50 states and the District of Columbia have Good Samaritan-related laws to encourage people to help a stranger who needs assistance by reducing the fear they may suffer legal repercussions.

The ReviveR™ VIEW by Defibtech

- Video and text display allows real time coaching, even in noisy environments
- Two-button operating system helps ensure ease of use
- Pre-connect pads with color and visual diagrams help reduce time to shock
- Charging time is 4 seconds, helping reduce time to shock

Part Numbers:

ReviveR™ VIEW by Defibtech • DEDCFC2310EN
 Adult electrodes • DEDDP2001
 Pediatric electrodes (for infants and children 8 years or under or under 55 lbs.) • DEDDP2002
 4-Year Battery • DEDCF2003

The AED Plus® by ZOLL®

- Real CPR Help® has been clinically shown to more than double survival rates of SCA victims*
- Synchronized 5-year pad and battery life to help ensure device readiness
- One-piece CPR-D-padz® help ensure proper pad placement to focus shock on the heart where it is needed

Part Numbers:

AED Plus® by Zoll® • 4001Z
 CPR-D-padz® electrodes • 8306150
 Pedi-padz® II pediatric electrodes (for infants and children 8 years or under or under 55 lbs.) • 8306188
 Duracell 123A Lithium Batteries (Sleeve of 10) • 8306151

AED Wall Mounting

CABINETS

AED Wall Cabinets

- Keeps emergency response equipment in a visible, secure location
- Optional battery-operated alarm sounds when cabinet door is open

Part Numbers:

For AED 3®, AED Plus®:

XL AED Cabinet w/ Alarm (20" x 20" x 12") • 19140

Deluxe AED Cabinet w/ Alarm (15" x 15" x 8") • 19190

For ReviveR™ VIEW:

Cintas Basic AED Cabinet w/ Alarm (18" x 17.25" x 4") • 19110

ReviveR™ AED Cabinet (No Alarm) (18" x 17.25" x 4") • 19120

SIGNAGE

AED Signage

- Informs employees and visitors in your facility about the availability and location of AEDs
- 6" x 9" v-sign protrudes from wall at an angle easily visible from multiple vantage points
- 10" x 14" flat sign mounts to wall for easy visibility

Part Numbers:

V-Sign • 341810

Flat Sign • 341790

BRACKET

AED Wall-Mount Bracket

- Keeps your AED close at hand
- The handle of the AED rests on this simple, easy-to-install wall bracket

Part Number: 132020

AED Travel Cases

CARRYING CASE

AED Soft Carrying Cases

- Store and transport your AED, an extra set of pads, extra battery and other accessories necessary during emergencies

Part Numbers:

AED 3® Standard Carry Case (holds extra set of pads) • 616856

AED 3® Large Hard-shell Carry Case (holds extra set of pads and one spare battery) • 616857

AED 3® Slim Hard-shell Carry Case (holds one spare battery) • 616858

AED Plus® Black Carry Bag (holds extra set of electrodes and a sleeve of batteries) • ZM8000080201

AED Plus® Large Rigid Plastic Carry Case (holds two extra set of pads and a sleeve of batteries) • 599520

ReviveR™ VIEW Ballistic Nylon Soft Carrying Case • 21780

RESPONSE KIT

ReviveR™ VIEW Grab-N-Run Quick Response Kit

- Designed to transport your ReviveR™ VIEW AED and includes basic first aid supplies
- Closed bag features AED pocket with status indicator window
- Easy transportation

Part Numbers:

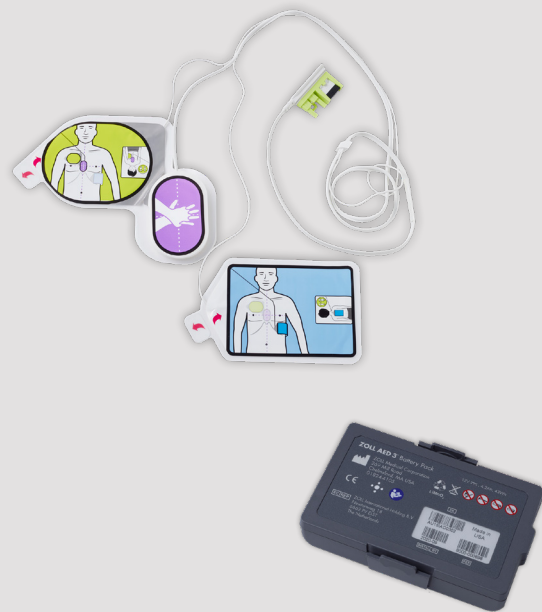

ReviveR™ VIEW Kit • 21800

Empty ReviveR™ VIEW Bag • 21820

AED Electrodes and Batteries

When emergency strikes, we're there to help you replenish your AED pads and batteries.

ZOLL

Part Numbers:

- AED 3[®] CPR Uni-padz[™] electrodes • 616852
- AED Plus[®] CPR-D-padz[®] electrodes • 8306150
- AED Plus Pedi-padz • 8306188
- AED 3[®] Disposable Lithium Manganese Dioxide Battery • 616853
- AED Plus[®] Duracell 123A Lithium Batteries (Sleeve of 10) • 8306151

DEFIBTECH

Part Numbers:

- Reviver[™] VIEW Adult electrodes • DEDDP2001
- Reviver[™] VIEW Pediatric electrodes • DEDDP2002
- Reviver[™] VIEW 4-Year Battery • DEDCF2003
- Reviver[™] Battery • DEDCF200
- Reviver[™] Pediatric pads • DEDDP200P
- Reviver[™] Adult Pads • DEDDP100P1

AED Products

An AED is just the first step in your program. Make sure you have what you need to respond to a sudden cardiac arrest emergency.

AED ACCESSORIES

ReviveR[™] VIEW Prep & Response Kit

- Easily transported bag filled with first aid items that may be needed in a cardiac emergency situation
- Contains: absorbent towel, protective gloves, CPR mouth barrier, antiseptic wipe, medical scissors and disposable razor
- 9.5" x 6.5" 1"

- Part Numbers:**
 Standard Kit with Carry Case • 21859
 Refill • 21880

Key Ring CPR ISO-SHIELD[™]

- Includes pair of gloves
 - Designed to fit most adults and children
 - Two flexible grips provide safer handling
- Part Number:** 171110

EMERGENCY OXYGEN

The R15[™] by Rapid Oxygen

- Provides 15 minutes of humidified oxygen at 6L/min
- Easy-to-use, no maintenance required
- No prescription required
- No electricity or batteries required
- Non-explosive and requires no specialized storage
- Safe to store and use in all public areas

- Part Numbers:**
 R15[™] Unit • 617075
 R15[™] Shelving Unit • 617077

Emergency Eyewash and Shower Service

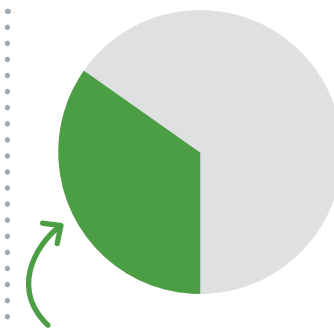

Without routine inspections, stations can often go unmaintained and can aggravate an injury during an emergency. Don't think twice about your eyewash stations being **READY™** to respond in an emergency — let your dedicated Cintas professional help you manage this with our Annual and Monthly Service inspections.

TOP PRODUCTS INCLUDE:

- 165 Self-contained eyewash
- 167 Plumbed eyewash
- 168 Additional eyewash

Each day about **2,000** U.S. workers sustain a job-related eye injury that requires medical treatment¹

Only 30% of Environmental Health and Safety Professionals are "extremely confident" that the station would function properly in an emergency²

Eye injuries alone cost more than **\$300 million** per year in lost production time, medical expenses and worker compensation³

Emergency Eyewash Stations

Eyewash stations can often go unused and unnoticed until disaster strikes. With routine eyewash service and maintenance, you don't have to worry about your stations being prepared to respond in an emergency. From gravity-fed to secondary stations, Cintas has the products you need to stay **Ready for the Workday®**.

ANSI Z358.1-2014

This standard is commonly referred to for emergency eyewash and showers. Some points include:

- Flush both eyes simultaneously
- Eyewash flush rate of 0.4 gallons per minute
- Flush for 15 minutes
- Be hands-free and offer valves with constant flow
- Activate in one second or less
- Be located within 10 seconds of hazard
- Be located within a clear path
- Includes a highly visible sign identifying the station

TYPES OF EYEWASH STATIONS

Self-contained units:

- 15 minute flow
- Often placed near forklift stations, machinery, tooling equipment

Supplemental units:

- One time use
- Commonly found in bottle form and in a variety of sizes

Plumbed units:

- Built directly into a building's water source
- Require weekly activation and annual inspection

Did you know?

Safety Data Sheets are designed to provide employees and first responders with the proper protocols for handling certain substances. Reference Section 4 of any SDS for emergency procedures and to determine if you need an eyewash station.

The Safety Director® Emergency Eyewash

EYEWASH STATION

The Safety Director® Eyewash Station

- Activates in less than one second
- Hands-free flushing of both eyes at the same time
- Wall mountable, 12-gallon
- 19¾" x 22" x 18"

Part Number: 133441

EYEWASH DRAIN CART

The Safety Director® Eyewash Drain Cart

- Easy collection of used flushing fluid
- Dual wheels with solid axle for easy portability
- 31.75" x 14" x 14.5"

Part Number: 6184800

EYEWASH STAND

The Safety Director® Eyewash Stand

- Fits The Safety Director® Eyewash Station
- Sturdy, industrial grade
- Allows station placement in virtually any environment without wall mounting
- 57.5" x 24" x 17.5"

Part Number: 132246

BENEFITS OF SERVICE AGREEMENT

Routine service from our dedicated Cintas eyewash service professionals throughout North America can help you trust that you're READY™ to respond when there is an emergency.

- All equipment is provided
- Includes quarterly service
- Bar-code scanning
- Electronic service records
- Eyewash station cleaning and refilling
- Clear communication
- Consistent monthly invoicing

EYEWASH ACCESSORIES

Eyewash V-Sign

Part Number: PZV1EW03A

Additive Concentrate

- Provides 16 gallons of preserved, buffered isotonic saline solution
- Provides protection against bacteria, fungi, algae, staph and acanthamoeba growth

Part Number: 584940

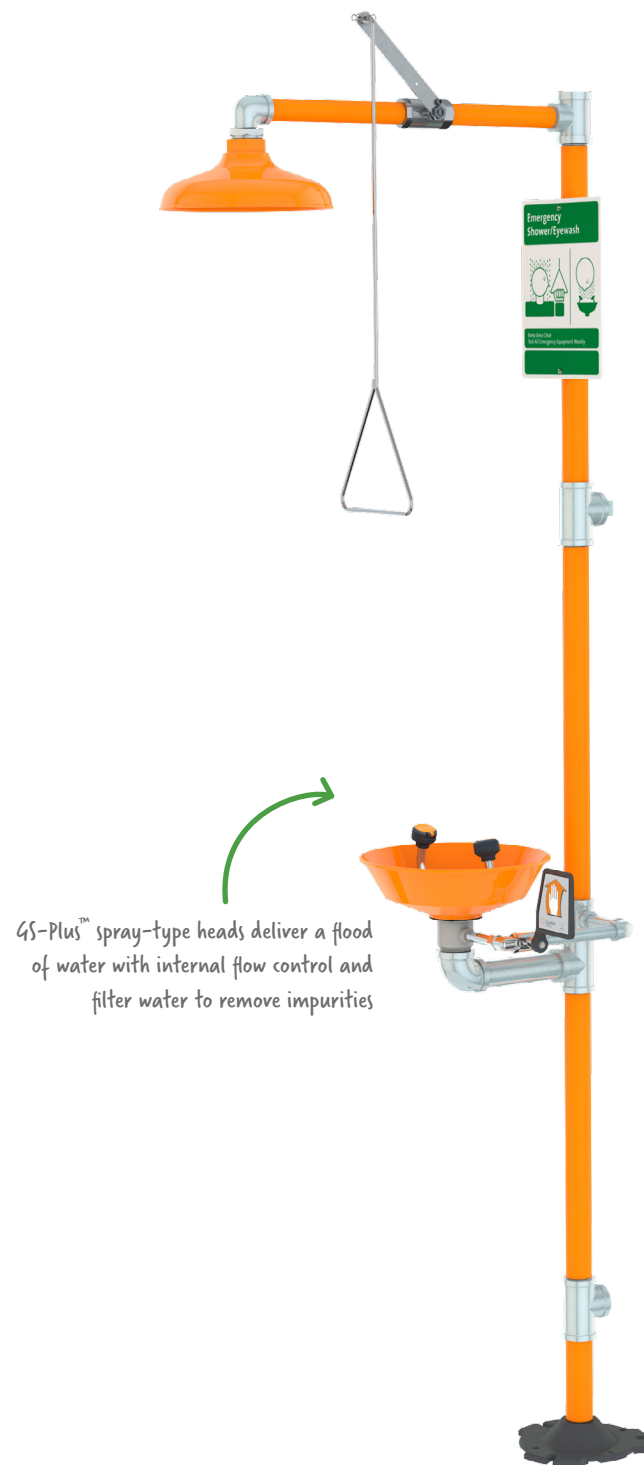

Eyewash Station Mat

- Protects floors from water hazard
- All-rubber construction for extreme durability
- Creates a defined area in front of the station to prevent station from being blocked

Part Number: 13216

Emergency Plumbed Eyewash

Let your dedicated Cintas professional help you manage your emergency eyewash with our weekly, monthly, quarterly and annual service inspections.

GS-Plus™ spray-type heads deliver a flood of water with internal flow control and filter water to remove impurities

Guardian Combination Eyewash and Shower Station

- Shower head and eyewash bowl made of ABS plastic
- Each spray head has a “flip top” dust cover
- Eyewash Bowl: 11¾" diameter orange ABS plastic

Part Numbers:

- Station with Plastic Bowl • 1660040
- Routine plumbed eyewash inspection • 618715
- Routine plumbed shower inspection • 618716
- Routine plumbed combo inspection • 618717
- Annual plumbed eyewash inspection • 618718
- Annual plumbed shower inspection • 618719
- Annual plumbed combo inspection • 618720

Plumbed eyewash inspection summary includes number of stations inspected. Any station that does not pass the service inspection is recorded.

Additional Eyewash

CARTRIDGE

Pure Flow 1000

- Unique nozzle design provides soft ribbon of flushing solution
- 24-month service cycle (unless activated) and exceeds ANSI Z358.1-2014
- Integrated fluid reservoir for waste disposal

Part Numbers:

- Pure Flow 1000® Unit (cartridges not included) • 132400
- 2-Pack Cartridge • 132420

Fendall 2000

- Same features as Pure Flow 1000 plus alarm system that sounds at activation
- 24-month service cycle (unless activated) and exceeds ANSI Z358.1-2014
- Integrated fluid reservoir for waste disposal

- Single sterile cartridge has a life of 2 years

Part Numbers:

- Fendall 2000® Unit (cartridge not included) • 8304459
- Cartridge • 8300650

BOTTLED

Supplemental Emergency Eyewash Station

- Holds three 16 fl oz bottles of buffered isotonic solution
- Classified as a supplemental eyewash station

Part Numbers:

- Station Only • 19020
- Eye and Skin Solution 16 fl oz • 130849

Honeywell Eyesaline® Station

- Holds two 32 fl oz of buffered saline solution

Part Numbers:

- 32 oz double bottle station • 132980
- 32 oz bottle only • 132990

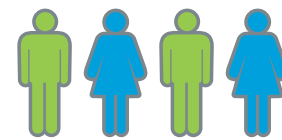

Safety Training

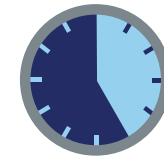

We help safety managers keep their employees **Ready for the Workday®** by helping them tackle their challenging training program. Our blend of onsite and online training options make it easy to train your team on the topics that are important to your business — on your schedule. Since training only counts if you have documentation to back it up, we also offer online recordkeeping and our industry-leading Safety Management Suite.

TRAINING PRODUCTS INCLUDE:

- 173 Most popular courses
- 180 Onsite hearing testing
- 181 Online training and tools
- 182 Safety Management Suite
- 183 Arc flash services

400,000+
people trained
annually

Over 75,000
classroom training
hours every year

20,000
classes instructed
each year

*PLEASE ASK YOUR SERVICE OR SALES PROFESSIONAL WHICH TOPICS ARE AVAILABLE IN YOUR AREA

First Aid, CPR, AED, Bloodborne Pathogens

This course includes hands-on instruction with engaging training your employees will enjoy. 1:1 student-mannequin ratio allows for personalized instruction and feedback. Also available as an online course with in-person CPR skills assessment.

AHA Heartsaver First Aid, CPR/AED and BBP Training Course #650013

- Recognize and treat adult emergencies prior to EMS arrival
- Determine when and how to administer basic first aid
- Learn to provide chest compressions and breaths
- Effectively use an AED (automated external defibrillator)
- Overview of bloodborne diseases and exposure control plan
- Protection against infection and proper-clean up procedure
- Pediatric CPR module available

29 CFR 10.151(b) "In the absence of an infirmary, clinic, or hospital in the near proximity to the workplace, which is used for the treatment of all injured employees, a person or persons shall be adequately trained to render First Aid."

Available formats: ● Onsite ● Online*

*MUST COMPLETE SKILLS CHECK FOR PROPER CERTIFICATION

Safety Courses

Bloodborne Pathogen Safety Course #65003

- Proper handling of blood and other bodily fluids to reduce risk of infection
- Safe and effective BBP removal and clean-up techniques
- Review of an effective exposure control plan

29 CFR 1910.1030 (g)(2)(i) "Employers shall ensure that all employees with occupational exposure participate in a training program, which must be provided at no cost to the employee."

29 CFR 1910.1030 (g)(2)(ii)(a) "At the time of initial assignment."

29 CFR 1910.1030 (g)(2)(ii)(b) "At least annually thereafter."

Available formats: ● Onsite ● Online ● DIY Training Tools

Confined Space Awareness Course #65205

- Definition and hazards associated with confined spaces
- Proper procedures for entry preparation, entry and retrieval
- Responsibilities of attendant, entrant and supervisor

29 CFR 1910.146(g)(1) "The employer shall provide training so that all employees whose work is regulated by this section acquire the understanding, knowledge, and skills necessary for the safe performance of the duties assigned under this section."

Available formats: ● Onsite ● Online* ● DIY Training Tools

Emergency Preparedness Course #65218

- Explanation of the four major types of emergencies
- Development of an emergency action plan
- The importance of effective drills
- Tips for returning to normal operation

29 CFR 1910.38(b) "...An emergency action plan must be in writing, kept in the workplace, and available to employees for review... an employer with 10 or fewer employees may communicate the plan orally..."

29 CFR 1910.38(e) "An employer must designate and train employees to assist in safe and orderly evacuation of other employees."

29 CFR 1910.38(f)/(1-3) "...An employer must review the emergency action plan with each employee covered by the plan... When the plan is developed or the employee is assigned initially to a job; when the employee's responsibilities under the plan change; and when the plan is changed."

Available formats: ● Onsite ● Online* ● DIY Training Tools

Ask your Cintas representative about our train-the-trainer course for topics like Forklift Safety and Respiratory Protection.

Fall Protection

- Determine when fall protection is required
- Use of a personal fall arrest system
- Different types of fall protection

CFR 1910.140 & 1926 Subpart M. Thorough employee training in the selection and use of personal fall arrest systems is imperative. As stated in the standard, before the equipment is used, employees must be trained in the safe use of Fall Protection.

 3 MAY NEED TO COMPLETE HANDS-ON TRAINING WITH A FIRE EXTINGUISHER.
 4 FIRE PROTECTION SERVICES AVAILABLE IN MOST CITIES THROUGH CINTAS FIRE PROTECTION.

WHAT IS OSHA CFR? TITLE 29 OF THE CODE OF FEDERAL REGULATIONS IS THE LEGISLATION GOVERNING THE U.S. OCCUPATION SAFETY AND HEALTH ACT, ESTABLISHED IN 1970 TO PREVENT WORKPLACE INJURIES, ILLNESSES AND DEATH.

Safety Courses

Hazard Communication/GHS Course #65226

- The Globally Harmonized System for Hazard Communication
- Chemical labels and Safety Data Sheets
- Proper precautions, including information on the effective use of PPE
- Emergency procedures for handling chemical exposures

29 CFR 1910.1200(h)(1) "Employers shall provide employees with effective information and training on hazardous chemicals in their work area at the time of their initial assignment, and whenever a new chemical hazard the employees have not previously been trained about is introduced into their work area..."

Available formats: ● Onsite ● Online ● DIY Training Tools

Hazardous Material (HAZMAT)

- Training covers general awareness, safety and security requirements
- Review of federal hazardous materials regulations
- How to read and use hazardous materials table
- Properly label and mark hazardous material containers for shipment
- Complete Bill of Lading for hazardous materials
- Select proper packaging for hazardous materials
- Understand the vehicle placarding requirements
- Develop appropriate emergency response information to accompany shipments

Available formats: ● Onsite ● Online

Hazardous Waste Operations and Emergency Response (HAZWOPER)

- Hazardous waste clean up
- Corrective actions involving clean up
- Treatment, storage or disposal
- Emergency response

CFR 1910.120(b)(1)(i). "Employers shall develop and implement a written safety and health program for their employees involved in hazardous waste operations. The program shall be designed to identify, evaluate, and control safety and health hazards, and provide emergency response for hazardous waste operations."

Available formats: ● Onsite ● Online

Ask your Cintas representative about our offline training options like DVD programs and Video Books.

Hearing Conservation Course #65230

- Noise exposure and its impact on hearing
- Proper use of hearing protection devices to achieve a proper fit
- Inspection and care for hearing protection

29 CFR 1910.95(k)(1) "The employer shall train each employee who is exposed to noise at or above an 8-hour time weighted average of 85 decibels in accordance with the requirements of [1910.95(k)]. The employer shall institute a training program and ensure employee participation in the program."

29 CFR 1910.95(k)(2) "The training program shall be repeated annually for each employee included in the hearing conservation program. Information provided in the training program shall be updated to be consistent with changes in protective equipment and work processes."

Available formats: ● Onsite ● Online ● DIY Training Tools ● On-Site Testing

Heat Injury Prevention and Heat Stress Course #65231

- Proper precautions and clothing
- Replenishing fluids and hydration
- Understanding your environment
- Signs and symptoms of heat exhaustion and heat stress

OSHA Act of 1970 Section 5. Duties (a) "Each employer (1) shall furnish to each of his employees employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his employees."

29 CFR 1926.28(a) "The employer is responsible for requiring the wearing of appropriate personal protective equipment in all operations where there is an exposure to hazardous conditions or where this part indicates the need for using such equipment to reduce the hazards to the employees."

Lockout/Tagout Course #65234

- LOTO definitions and most common forms of energy sources
- Situations that require LOTO procedures, types of devices and their proper use
- Safe start-up procedures and tips for special situations
- Training for authorized and affected employees

29 CFR 1910.147(c)(7)(i) "The employer shall provide training to ensure that the purpose and function of the energy control program are understood by employees and that the knowledge and skills required for the safe application, usage, and removal of the energy controls are acquired by employees..."

29 CFR 1910.147(c)(7)(i)(A) "Each authorized employee shall receive training in the recognition of applicable hazardous energy sources, the type and magnitude of the energy available in the workplace, and the methods and means necessary for energy isolation and control."

Safety Courses

OSHA 10 and 30 Hour

- Awareness of common job-related safety and health hazards
- Basic training on the recognition, avoidance, abatement, and prevention of workplace hazards
- Provides information regarding workers' rights, employer responsibilities and filing a complaint

Course Topics:

- Introduction to OSHA
- Walking and Working Surfaces
- Emergency Action Plans
- Fire Prevention
- Personal Protective Equipment
- And more

Available formats: ● Onsite ● Online

Respiratory Protection and Fit Testing

Course #65252 #65501 Quantitative Fit Testing #65500 Qualitative Fit Testing

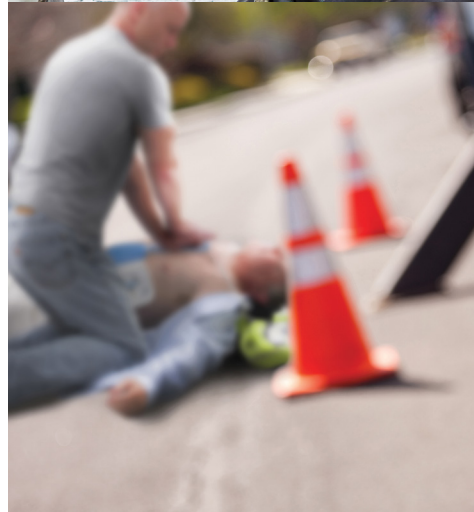

- Why respirators are important
- Proper selection, fitting, inspection and storage of respirators
- How to properly use a respirator

29 CFR 1910.134(k) "... the employer [is] to provide effective training to employees who are required to use respirators. The training must... recur annually..."

29 CFR 1910.134(k)(3) "The employer shall provide the training prior to requiring the employee to use a respirator...."

Available formats: ● Onsite ● Online
● DIY Training Tools ● On-Site Testing

We also provide on-site respirator fit testing and online medical clearance questionnaires. Please note: Medical clearance is required prior to an employee's initial fit test.

Workplace Violence Prevention/ Active Shooter Preparedness

Course #65257

- Categories of workplace violence
- Myths surrounding violence in the workplace
- Identifying areas of concern
- Options for dealing with an armed threat

Cintas has teamed up with the Center for Personal Protection and Safety, a leading developer of workplace violence prevention training, to offer on-site workplace violence/active shooter training.

OSH Act of 1970 Section 5. Duties (a) "Each employer (1) shall furnish to each of his employees employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his employees."

Available formats: ● Onsite ● Online

Onsite Hearing Testing

Not only can hearing damage affect your employees' on-the-job performance, but it can reduce the quality of their personal lives. Cintas can connect you to third-party vendors for onsite hearing testing to help you protect your employees.

FEATURES AND BENEFITS

- Custom scheduling to fit your needs
- Convenient and customizable: testing only, testing and training or the full-service option
- State-of-the-art equipment and testing processes for quality results
- Industry-leading CAOHC certified audiologists oversee the process and review results
- Accuracy is key. We'll automatically retest if a potential hearing loss is detected
- Free access to your own secure online compliance and reporting system

29 CFR 1910.95(G)(1) "The employer shall establish and maintain an audiometric testing program as provided in this paragraph by making audiometric testing available to all employees whose exposures equal or exceed an 8-hour timeweighted average of 85 decibels."

Online Training and Tools

In today's busy workplace, keeping your employees trained can be challenging. Let Cintas help you stay **READY™** with instant access to the training content and compliance resources you need.

ONLINE TRAINING:

Choose from 350+ topics for interactive online training for remote employees, multiples shifts, new hires and employees absent from classroom training.

Online courses include:

- Scored quizzes to help gauge comprehension
- Mobile capability for access on tablet or phone
- Online recordkeeping and completion tracking

VIDEO ON DEMAND:

Access hundreds of online video courses that provide you with anywhere, anytime instruction on the safety and compliance topics important in your industry.

Training materials included*:

- PowerPoint® presentations
- Trainer guides
- Quizzes
- Checklists
- Posters
- Supplemental Videos

*TRAINING MATERIALS VARY BY TITLE

J.J. Keller® Safety Management Suite

It's not enough to train your employees ... you need written programs, regulatory knowhow and documentation to back it up. But managing all that can be a tall order. That's why Cintas is collaborating with J.J. Keller to bring you the Safety Management Suite.

YOU'LL GET INSTANT ACCESS TO:

Expert help: Ask J.J. Keller's experts an unlimited number of compliance questions in a secure, private environment.

Chemical center: Maintain a comprehensive hazard communication program with unlimited access to a wide range of multi-language SDSs.

Regulations: Reference an up-to-date repository of key federal and state regulatory requirements.

Incident center: Comply with OSHA's incident & illness record-keeping requirements and easily identify and track trends.

Written safety plans: Create custom safety plans tailored to the unique needs of your organization.

Audits & inspections: Generate and print checklists, assign inspection responsibilities and gather results for analysis and reporting.

Training: Access hundreds of award-winning training programs and thousands of customizable training resources.

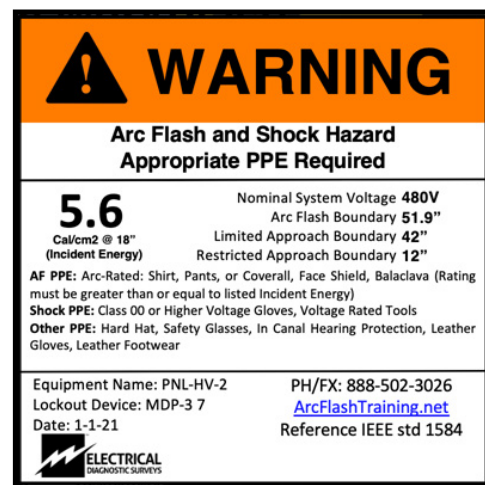

"EXPERT HELP" IS NOT MEANT TO REPLACE A REGULATORY OR LEGAL CONSULTANT

Arc Flash Services

OSHA and the National Fire Protection Association (NFPA) make it clear that employers must assess the workplace for hazards. Not just general hazards, but those that necessitate the use of PPE. There are three known electrical hazards: Arc Flash, Arc Blast and Electrical Shock. Each of these hazards requires use of PPE as well as identification through a process known as Arc Flash and Shock Risk Assessment.

- 29 CFR 1910.132(d)(1) states: "The employer shall assess the workplace to determine if hazards are present, or are likely to be present, which necessitate the use of personal protective equipment (PPE). If such hazards are present, or likely to be present."
- NFPA 70E Article 130.5 states: "An arc flash risk assessment shall determine if an arc flash hazard exists, the arc flash boundary, and the PPE to be used within the arc flash boundary."
- NFPA 70E Article 130.5 (G) states: "The incident energy analysis (arc flash risk assessment) shall be updated when changes occur in the electrical distribution system that could affect the results of the analysis. The incident energy analysis shall also be reviewed for accuracy at intervals not to exceed 5 years."

WHAT THE PROCESS ENTAILS:

A proper Arc Flash Risk Assessment is both site and equipment specific. Cintas can connect you to third party vendors who will help provide an Arc Flash Assessment specific to the equipment installed. This assessment will take into account the design of the existing electrical distribution network and will include the following:

- Data Collection
- One-Line Diagram Development
- Analysis
- Equipment Labels

ASK US ABOUT OUR ARC RATED CLOTHING AND PPE

We offer a full selection of Men's and Women's Arc Rated clothing so that you can customize a program to fit your exact needs. We also can provide you with category 4 Arc Flash Suits and the Head and Hand Arc Flash/Shock protection that is often required when working on electricity, as outlined in NFPA 70E.

Originally developed at OSHA's request, NFPA 70E helps companies and employees avoid workplace injuries and fatalities due to shock, electrocution, arc flash and arc blast, and assists in complying with OSHA 1920 Subpart S and OSHA 1926 Subpart K.

NFPA 70E ARC FLASH TRAINING

Our third-party vendors can provide Arc Flash training. This course will cover the following topics:

- OSHA Regulations and NFPA 70E Electrical Safety Standards
- Safe work practices
- Proper Lockout/Tagout
- Understanding Arc Flash and Arc Blast
- Selection of Personal Protective Equipment
- And many more

Available formats: ● Onsite ● Online*
 ● Blended Online and Virtual

NFPA 70E ARC FLASH ASSESSMENT

A proper Arc Flash Risk Assessment is both site and equipment specific. Cintas can connect you to third party vendors who will help provide an Arc Flash Assessment specific to the equipment installed. This assessment will take into account the design of the existing electrical distribution network and will include the following:

- Data Collection
- One-Line Diagram Development
- Analysis
- Equipment Labels

DISCLAIMER: CINTAS' ARC FLASH RISK ASSESSMENT IS CONDUCTED BY AN UNAFFILIATED THIRD-PARTY AND CINTAS DOES NOT MAKE OR PROVIDE ANY REPRESENTATIONS, RECOMMENDATIONS, OR GUIDANCE WITH RESPECT TO ELECTRICAL HAZARDS PRESENT IN THE WORKPLACE OR THE PERSONAL PROTECTIVE EQUIPMENT ("PPE") THAT IS NECESSARY FOR ANY PARTICULAR WORKPLACE. IT IS THE SOLE RESPONSIBILITY OF THE EMPLOYER TO PERFORM WORKPLACE ASSESSMENTS TO IDENTIFY POTENTIAL HAZARDS THAT EXIST IN THE WORKPLACE, IN ACCORDANCE WITH OSHA 1920.132. THE EMPLOYER IS SOLELY RESPONSIBLE FOR DETERMINING THE NECESSARY PPE TO PROVIDE TO EMPLOYEES BASED ON THE ARC FLASH HAZARDS THAT EXIST IN THE WORKPLACE, CINTAS SHALL HAVE NO LIABILITY TO THE CUSTOMER, THE EMPLOYER, ITS EMPLOYEES OR ANY OTHER PERSON OR ENTITY RELATING TO CINTAS' ARC FLASH RISK ASSESSMENT OR ANY SERVICES RELATED THERETO. CINTAS DISCLAIMS ALL WARRANTIES OTHER THAN AS EXPRESSLY PROVIDED.

DISCLAIMER: CINTAS TRAINING IS INTENDED TO ASSIST EMPLOYERS AS THEY STRIVE TO IMPROVE AND MAINTAIN WORKPLACE HEALTH AND SAFETY. DEPENDING ON THE NATURE AND LOCATION OF THE WORKSITE, FEDERAL AND STATE STATUTES AND REGULATIONS MAY REQUIRE THAT EMPLOYERS CONDUCT SPECIFIC TRAINING FOR THEIR EMPLOYEES. EACH WORKSITE SHOULD BE EXAMINED BY THE EMPLOYER TO DETERMINE WHICH TRAINING PROGRAMS THE LAW REQUIRES FOR THAT SPECIFIC WORKSITE. CINTAS DOES NOT PROVIDE RECOMMENDATIONS OR GUIDANCE REGARDING WHICH SAFETY PROGRAMS AND TRAINING ARE REQUIRED FOR ANY PARTICULAR WORKPLACE. THE SERVICES ARE PROVIDED FOR EDUCATIONAL PURPOSES ONLY. CINTAS SHALL HAVE NO LIABILITY TO CUSTOMER OR ANY OTHER PERSON RELATING TO OR RESULTING FROM THE SERVICES OR THE INFORMATION PROVIDED IN CONNECTION WITH THE SERVICES. CINTAS WILL NOT BE LIABLE WITH RESPECT TO ANY DECISIONS MADE BY CUSTOMER AS A RESULT OF THE TRAINING OR IN CONNECTION WITH SERVICES OFFERED.

More ways to keep your business Ready™
