

# Help Drive Worker Productivity and Ensure OSHA Compliance

Companies operating in work environments with high noise levels are required to protect their employee's ability to hear. Cintas has partnered with Examinetics, the nation's largest provider of on-site hearing testing and data management services, to help protect your employees and ensure regulatory compliance.

With an on-site hearing testing and training solution from Cintas, you can reduce the costs of annual assessments and compliance tracking.

## Maximize Productivity

- CAOHC\* certified Occupational Health Specialists provide mobile audiometric testing during one session, instead of the standard three sessions, so that your employees can be more productive
- Services provided by the nation's largest fleet with state-of-the-art testing units. Employees no longer need to leave your location to fulfill testing requirements

## Professional Counseling

- Industry-leading audiologist team will oversee your program, and review results to make professional recommendations

### OSHA code CFR 1910.95 (g):

"Audiometric testing program. The employer shall establish and maintain an audiometric testing program as provided in this paragraph by making audiometric testing available to all employees whose exposures equal or exceed an 8-hour time-weighted average of 85 decibels."

# Comprehensive On-site Hearing Testing & Counseling Accomplished in One Session

All hearing testing, training and counseling requirements are fulfilled before the unit leaves your facility.

During testing, each employee will receive:

- *Otoscopic Examinations* to rule out possible medical problems and to promote use of proper hearing protectors
- *Testing* in English and Spanish, utilizing national standardization testing protocols
- *Immediate test results* and notification of any changes in hearing and/or potential medical concerns
- *Training* using videotapes that meet OSHA annual training requirements, and on-site hearing conservation classes with our expert training
- *Counseling and Notification* of test results that are handled using an easy to read employee notification letter

## Flexible Scheduling with National Coverage

- Largest fleet of mobile occupational health screening units in the nation
- Each unit includes air-conditioned/heated/ventilated reception & testing rooms
- Half-day or full-day sessions allowing up to 96 people to be tested in one day

## Consistency of Testing

- Customers with multiple sites ensured consistency of testing across every site
