

Cintas provides a comprehensive program to exceed all of your hearing protection, training, and testing needs.

One solution for your on-site hearing testing, training, and personal protective equipment requirements

#### ON-SITE HEARING TESTING

- Cintas has partnered with Examinetics, the nation's largest provider of on-site hearing testing and data management services
- Send all of your employees through required annual hearing testing in one day, at your facility and your convenience
- All hearing testing and counseling requirements are fulfilled before the unit leaves your facility

#### HEARING PROTECTION EQUIPMENT

- Employees who are exposed to noise levels at or above 85 decibels averaged over an 8-hour period must be provided with hearing protection
- Cintas comes on-site to deliver your hearing protection to you as frequently as you need it
  - Choose from: corded and uncorded/disposable and reusable ear plugs, ear muffs, and ear bands

#### HEARING CONSERVATION TRAINING

- Cintas provides on-site, online, and compliance programs around your training needs
- The program teaches employees about daily awareness of loud noise areas
- Program covers proper use of hearing protection equipment, definition of noise, warning signs of hearing loss, and typical decibel levels
