Simplify your operations to save over 4 hours a week – that’s more than 220 hours annually.*

Before

80% of dirt is tracked in from the outside (Institute of Industrial Launderers), and only 10% of dirt is removed from mats when using a vacuum cleaner. (Georgia State University)

Rental scraper and carpet mats trap dirt before it enters your building—saving time spent sweeping and mopping floors.

The proper cleaning tools reduce time changing out dirty mop water.

A managed inventory program for microfiber mops eliminates time spent laundering mops as well as purchasing and storing replacements.

Floor Zone

After

Before
Restroom Zone

41

Save over 2.5 hours a week and improve your appearance – that’s over 3 workweeks a year*.

BEFORE

AFTER

70% of visitors rank a clean restroom as extremely important. (Cintas Research)

Signature Series dispensers mean no stocking or shopping for essential restroom supplies.

Sanis UltraClean® service keeps your restrooms fresh and sanitized, your customers happy, and your employees focused on work.

Cintas manages your restroom supply inventory and services the dispensers with a tailored schedule that fits your business.

*All times are based on the following factors: 7 day operation, 1000 sq. feet of cleanable space, restroom with two toilets and two sinks.
Focus on your food by saving over 1.5 hours a week - annually that is almost 2 full work weeks.*

A poor health inspection rating can translate into a serious downturn in business, whereas a clean rating can increase revenue by at least 6%. (Restaurant Business)

Kitchen Zone

- Keep your kitchen safe and sanitary with drains that flow freely. Avoid time-consuming pump outs and costly emergencies.

- Cintas provides you with fresh aprons and towels, saving you time by eliminating time spent managing inventory and laundering.

- Protect your floors and employees with lightweight Dura-Lite mats that are easier to clean.
Convenient, worry-free supplies mean fewer emergency trips and saving 2.5 hours a week – that’s 3.5 workweeks a year*.

Cleaning chemical dilution systems can reduce chemical usage by as much as 30% versus concentrates (ISSA) while also saving valuable time.

- Easily locate the right cleaning chemicals and save time purchasing, inventorying and diluting them.
- Weekly delivery of longer lasting products means your customers won’t find empty dispensers, and you will save time re-filling them.
- Quickly pick up spills and perform light cleaning without preparing a traditional mop and bucket.

*All times are based on the following factors: 7 day operation, 1000 sq. feet of cleanable space, restroom with two toilets and two sinks.
Cintas also offers many other products and services, including:

- Custom Floor Mats
