REGENERATION™ SUITING COLLECTION

Exclusive to Cintas, made of 100% recycled polyester produced entirely from post consumer waste.

· One single suit is made out of approximately 25 recycled 2-liter plastic bottles.

· According to the Environmental Protection Agency (EPA), apparel made from recycled material uses 66% less energy compared to the manufacturing of polyester fiber. This process also reduces water usage by 90% and helps eliminate harmful air emissions.

· Regeneration™ is designed to be machine washable as a convenient, cost-efficient care option compared to most suiting apparel.

MODERN ECO STRETCH PANTS COLLECTION

The ultimate comfort and stretch for everyday wear using Repreve® polyester yarn made of 100% recycled materials.

· Recycling leverages the reuse of materials already made from natural resources to convert waste materials into high-quality fabrics.

· On average, every pound of Repreve® yarn conserves the equivalent of half a gallon of gasoline, totaling 10 million gallons of gas that will be saved by 2011 making recycled yarns.

· Repreve® is a member of the 1% For the Planet organization, which donates 1% of their profit to selected environmental causes. As a result of this partnership, your environmental impact grows with each purchase made from this collection over time.

GARMENT CARE

Maximize your investment by taking proper care of your garments. Below are three simple rules to follow.

Rule #1 – Care

The first rule of garment care — follow the directions in the garment label. This tells you how to properly launder the garment.

- Washable suiting should be laundered at home in warm water on gentle cycle. Dry on low heat, remove when slightly damp. For optimal appearance, finish with a steam iron.

Rule #2 – Fit

Wearing the wrong size results in the garment wearing out before its time. Avoid this by using the Size Guide to order the right size for your body. If you have several employees to fit, order a Fit Line for the employees to try on.

Rule #3 – Par Level

PAR is the term used to designate how many sets of uniforms have been issued to each employee. Buying the right PAR level and rotating garments will prove to save you money. Recommended PAR levels for full time employees:

- Suiting -
  - 3 PAR for Blazers,
  - 3 PAR for Pants, Slacks, Skirts
- Shirts/Blouses - 4-5 PAR
- Polos - 3 PAR
- Ties/Neckwear - 2-3 PAR
- Banquet Staff - 3 PAR
- Grounds/Engineering - 5 PAR
- Vests - 3 PAR
- Housekeeping garments - 3 PAR
MEASURING STEPS & SIZE CHARTS

Male Measuring Steps

**Neck:** Measure around the base of the neck where the collar will sit, keeping tape measure snug.

**Chest:** Measure the fullest part of the chest, keeping tape measure parallel to floor.

**Waist:** Measure around the narrowest point of the natural waistline (not over clothing), keeping tape measure snug, but not tight.

**Hips:** Stand straight with feet together and measure around the fullest part of the hips (about 9" below natural waistline), keeping tape measure parallel to floor.

**Sleeve Length:** Measure from the center back of neck to the outermost point of the shoulder, then continue measuring to the wrist, keeping tape measure centered at the elbow.

**Inseam:** Using similar pants that fit well, measure the length from the joint of pants legs to the bottom hem of the leg, rounding to the nearest half-inch. If pants are cotton or cotton blend, add half-inch to allow for shrinkage.

Female Measuring Steps

**Bust:** Relax arms and measure around the fullest part of the bust, keeping tape measure parallel to floor.

**Waist:** Measure around the narrowest point of the natural waistline (not over clothing), keeping tape measure snug, but not tight.

**Hips:** Stand straight with feet together and measure around the fullest part of the hips (about 9" below natural waistline), keeping tape measure parallel to floor.

**Sleeve Length:** Bend arm slightly and measure from the outermost point of the shoulder to the wrist, keeping tape measure centered at the elbow.

**Inseam:** Using similar slacks that fit well, measure the length from the joint of slack legs to the bottom hem of the leg, rounding to the nearest half-inch. If slacks are cotton or cotton blend, add half-inch to allow for shrinkage.

Belt Sizing

To ensure a proper fit, add two inches to your waist measurement when selecting a size. Your belt should fit comfortably when worn using the center hole. Or, using an existing belt that fits well, measure from the center hole to where the buckle connects to the strap. (Do not measure from end to end.)

Garments may vary in sizing. If you have questions, please contact our Customer Service Department.
