Healthy Planet.

An Image Apparel Program to Help The Planet.

Cintas, like Westin, is dedicated to offering sustainable solutions. The new suiting collection offered consists of fine fabrics made from recycled polyester, wool, and Sorona® yarns. Sorona® is made with renewably sourced plant-based ingredients which provide a carbon dioxide reduction of 30%, making our new garments eco-friendly.

Our commitment to the environment is on display throughout the collection with many other items made from recycled polyester to help reduce your carbon footprint. Look for the green leaf throughout this document to identify eco-friendly products.

The suits, from our EcoGeneration by Cintas™ collection, are created from recycled plastic bottles that are collected, washed and sorted, then ground into flakes and used as a new raw material. Recycling plastic bottles into fibers saves 33% of the energy consumption compared to manufacturing from virgin fiber (derived from crude oil), helps divert waste from landfills and reduces the CO2 emissions by 47%.
