

Waste Position

PURPOSE

This document formalizes the Cintas commitment to responsible waste management.

SCOPE

This commitment applies to all Cintas operations and working Partners, as well the suppliers and vendors we work with every day. In addition, we support our customers' efforts in this area.

POSITION

In addition to our compliance procedures, Cintas is committed to responsible waste management through the following specific actions:

- We will evaluate our operations and identify opportunities for waste minimization through improvements in process efficiency.
- We will evaluate recycling and reuse options and utilize alternate options where appropriate.
- We will research new technologies for waste minimization and recycling/reuse in our operations.
- We will engage our suppliers and vendor partners to assist with this commitment through innovation in the products and services they provide us.
- We will encourage our suppliers and vendor partners to responsibly manage wastes through improvements to their own operations and processes.
- We will collaborate with our customers to support their commitments and goals regarding waste management.
